

**Rumba**<sup>®</sup> Modular

# Rumba® Modular

Adjustable, adaptable, modular options

## Excellent indoor manoeuvrability

The Rumba Modular's compact base and tight turning circle make indoor driving safe and simple.

Manoeuvring through tight spaces is safe and easy thanks to the Rumba Modular's smooth drive, nimble performance and speed adjustable controller.

## Excellent outdoor performance

Outdoor driving is safe and reliable with the Rumba Modular.

High performance motors and a programmable controller deliver a smooth yet powerful ride, whilst the well balanced folding frame design ensures safety, stability and user comfort across uneven ground.

## Easy, adjustable comfort

**Seat width: +5cm (2") /  
-5cm (2")**

The Rumba Modular is packed with adjustable features to suit individual user requirements.

A range of seat widths from 37cm - 53cm can be accommodated and the backrest provides 42.5cm - 50cm of seat depth adjustment built into every chair.

**Seat depth: 42.5 - 50cm**

Adjustments on the Rumba Modular are quick and simple to make. From only two standard frame sizes healthcare professionals can tailor the chair to a client's individual requirements and with the range of modular options both comfort and clinical objectives can be achieved efficiently.

**Back height: 48 - 54cm**

## Modular Options

The Rumba Modular is available with a wide range of options including comfort, positioning and manual or powered options. All options are modular in design so adding them requires no complex alterations or additional parts. Therefore not only adjusting but also reconfiguring the Rumba Modular is simple and efficient.

**Reclining backrest and power or  
manual elevating legrests**

### Available options:

- Powered or manual elevating legrests
- Reclining backrest
- Tension adjustable backrest
- Sling headrest
- Anatomic headrest
- Comfort seating
- Kerb climber (removable)
