

XFamily²

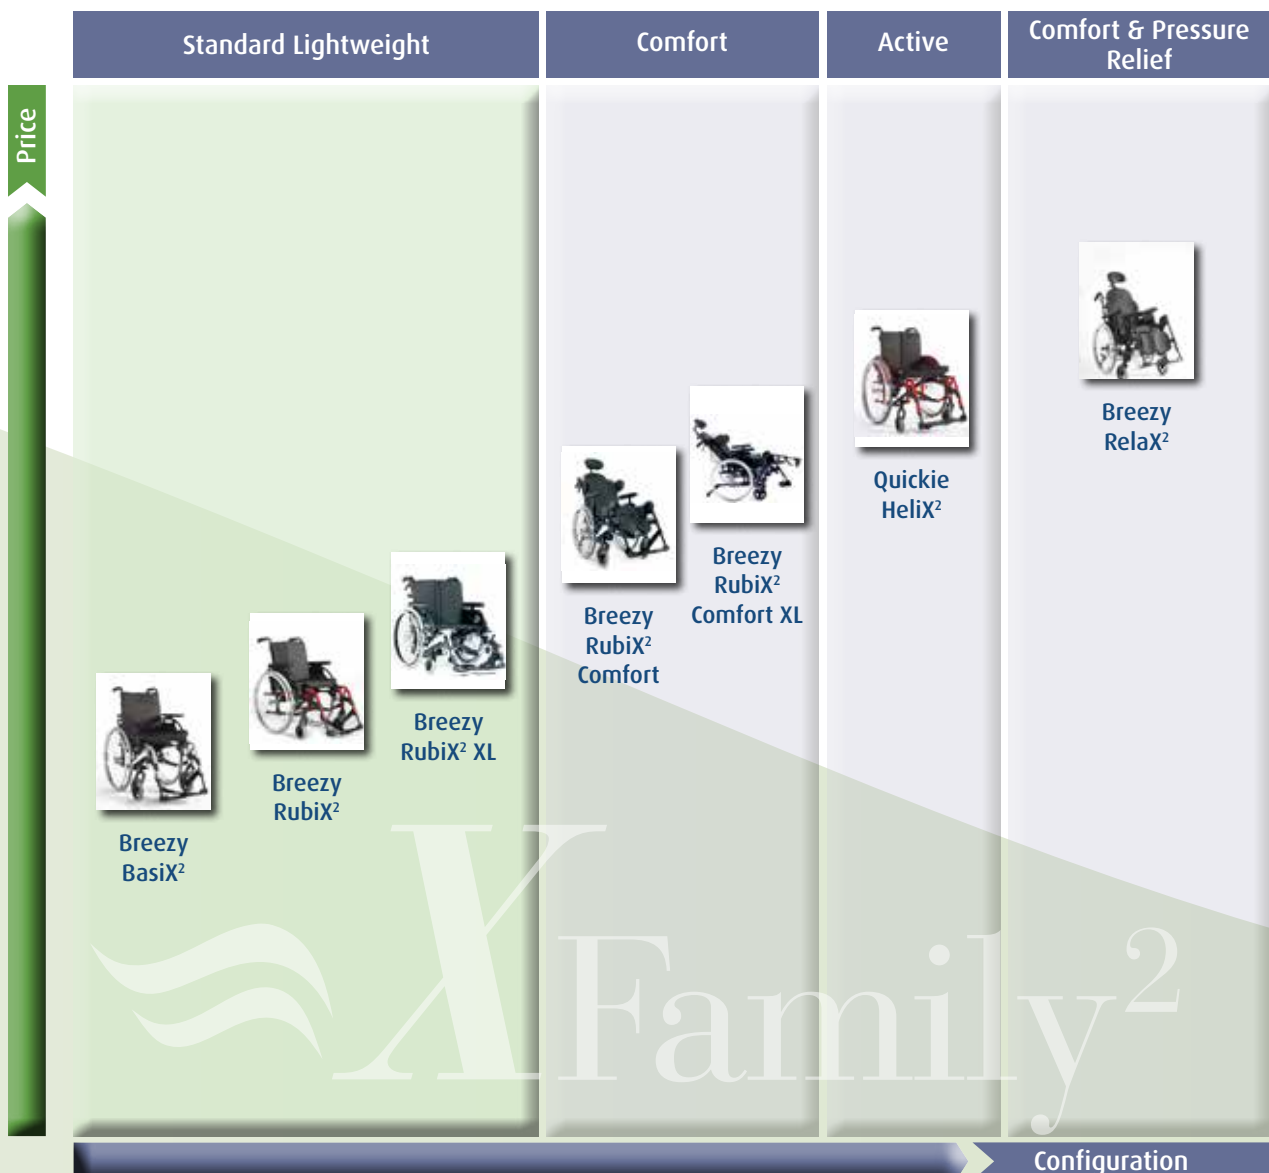

New X Family²

Optimise your fleet management.

A choice of seven wheelchairs, created around one concept.

- Highly flexible configurations make the chairs easy to reconfigure and reissue
- Interchangeable parts deliver a cost-effective option from a spares perspective
- Quick and easy re-configuration, adjustment and retro-fitting
- Less time, less investment; more flexibility, more options, more efficiency!

BasiX²

Improved adjustability and rigidity with a new modern look.

New improved frame offers more seat depth adjustment (41 - 46cm).

The tension adjustable backrest is now extendable from 41 - 46cm.

A new robust castor attachment offers more rigidity and an improved appearance.

RubiX²

Meets a broad range of clinical needs including: hemiplegic specifications, angle adjustable and reclining backs, comfort seating. This chair is able to match the needs of a wide range of users.

New robust three arm cross brace.

Comfort seat and reclining back (option) for increased sitting tolerance.

Tension adjustable four strap backrest extendable from 41 - 46cm.

RubiX² XL

XFamily²

The RubiX² XL extends the user range for heavy duty users by offering seat widths up to 60cm with a 170kg user weight.

New robust castor attachment offers more rigidity and an improved appearance.

Robust reliable four arm cross brace.

Drum brake (option).

Helix²

The configurable active chair designed for efficient fleet use, combining the strength of the RubiX² with lifestyle options.

Tension adjustable back sling and back height adjustment (35 - 50cm) for optimal active ergonomics and comfort.

Angle adjustable back to match active and semi-active user requirements (option).

Choice of lightweight stylish wheels, castors and tyres for the more active user.

RelaX²[™]

XFamily²

Modern looks combined with a high level of comfort and functionality. The RelaX² offers flexibility, adjustability and a wide range of options - a perfect mobility solution.

Infinitely reclining backrest for optimum positioning. Recline from 0° to 35°. Seat tilt from -3° to 25°.

Seat depth adjustable from 42 – 50cm.

New and improved elevating legrest for increased functionality and improved appearance.

Accessories and seating

The X Family² comes with a wide range of options, settings and adjustments.

Height adjustable push handles

Reclining back (30° infinite adjustable)

Half folding back

Anti-tips (swing-away, adjustable)

Drum brake

Height adjustable armrest with sliding pad for long and short position

Elevating legrests

Foldable stabiliser bar

Stump pad

The X Family² is designed with optimal user comfort in mind. By combining different seats and backs the chairs can be tailored to suit individual needs. The addition of the JAY range now makes it possible to optimise the user's position and properly support their posture.

The JAY Basic is designed for the symmetrical client with low skin risk who requires comfort and minimum postural support.

The JAY Soft Combi P cushion is designed for the client who has symmetrical posture and low risk of skin breakdown needing minimum to moderate postural support.

The JAY Easy Visco is a lightweight cushion with high level comfort and stability.

Shallow Contour
(SC)

Mid Contour
(MC)

Deep Contour
(DC)

Mid Deep Contour
(MDC)

Posterior Deep
Contour (PDC)

Available on the Breezy RubiX² and HeliX².

The J3 back is anthropometrically designed for support and positioning, with a wide range of shapes and sizes to match the user's clinical needs.

Manage your fleet easily and cost-effectively with the X Family²

With so many interchangeable components you can hold less stock, but still offer amazing flexibility.
