

QUICKIE
Live without limits.

5^R

**HIGHLY
ADJUSTABLE**
TO ELEVATE YOUR MOBILITY

The Quickie 5^R is designed to deliver full adjustability without compromising on performance.

With the infinitely adjustable centre of gravity and ability to adjust the backrest height and angle - *You'll always find a seating position that suits you best!*

OPEN FRAME DESIGN

The Quickie 5^R's open frame takes the ride quality and geometry that you love about the GT and improves upon it with a swept-back hydro-formed caster design for added style and a smooth ride.

The 5^R offers two frame options. The Classic features a traditional frame length for maximum stability. The shortened Performance frame length offers maximum responsiveness.

NEW AXLE PLATE DESIGN

The 5^R's swept-back axle plate design isn't just for looks. It is also incredibly quick to adjust and is available in two lengths to ensure you are getting the adjustments you need without adding extra weight.

THE 5^R
GIVES YOU
ACCESS TO THE
**PREMIUM
OPTIONS**
YOU WANT TO
ELEVATE
YOUR MOBILITY

PREMIUM OPTIONS

Quickie Xtender Power Assist

Developed by Quickie and Yamaha, the Xtender features motorised rear wheels that increase the force you apply to the handrims by four times.

XTR Suspension

The XTR Suspension Frame helps you fearlessly conquer curbs, bumps, and tough terrain. Add Mountain wheels, Knobby tires, wide casters, and Frog Legs suspension caster forks for the ultimate off-road wheelchair experience.

Topolino Carbon Core Wheels

One of the lightest wheelsets on the market today at only 1.1 kgs per pair. Topolino Carbon Core Wheels enhance your overall independence and mobility while making transport and storing much easier.

Custom-Colored JAY® J3™ Backs

Add a pop of matching or contrasting colour to your 5^R with a painted JAY J3 back. Choose from any of the standard or matte frame colours available on Quickie wheelchairs, and we will paint your J3 back at no additional charge.

COMPLETE OPTION MIX FOR FUNCTION & STYLE

The new 5R is an ideal combination of rigid performance with a multi adjustable active chair. The wide range of adjustment allows you to fine tune your performance, ensuring a great ride now and in the future.

Our Built-4-Me Team is dedicated to creating product customizations beyond what is listed on our product order forms.

Experts in the engineering and manufacturing of custom rehab products will listen to your specific requests and build a chair as individual as your fingerprint!

Customisations include:

- Custom paint
- Spinerge wheels with colored spokes
- Custom upholstery
