BULLETIN DETAILS

Product Group:	Manual	
Model Affected:	Xenon ²	
Effective Date: 28th November 2016	Serial No. Effective From:	N/A
Bulletin Subject:	New forged parts - 90° backrest (Option XFF / XES 030010)	

Description of Bulletin:

We are always looking for ways in which we can improve the existing product range and as part of this we have now changed the 90° backrest on Quickie Xenon² from a cast part with a welded backrest tube to a forged part with a clamped backrest tube. The new part numbers are XFF030010 or XES030010.

Old Design

New Design

This change will be implemented on all Quickie Xenon² placed from the 28th November 2016.

Benefits to the Customer:

This is due to there being great success of a similar design on the Neon², this new backrest design ensures a much sturdier and stronger backrest resulting in no broken welding-seams on the backrest-tubes. The backrest tube on the new design can now be exchanged separately, this therefore results in it now being possible to retrofit the desk-sideguards to the Quickie Xenon²

Literature affected:

- Owner's Manual N/A
- Order Form N/A
