## Stronger together.

We work with individuals, therapists and carers to design products with both a clinical and an emotional focus.

Using the latest research and clinical understanding, we create practical solutions which are easily integrated into family life, because for us, life is about going, enjoying, participating and doing.

24 hour  
postural care for  
babies, kids & adults.  
Sleeping, Sitting,

## Freestander

---

Available in **3 sizes**, covering a large growth range from **1 - 18 years** of age, the Leckey Freestander comes as standard with angle, depth and height adjustable chest, hip and knee supports ensuring the product meets a wide range of clinical needs.

---

The unique positioning achieved by the pelvic belt enables de-rotation of the hips; alignment of the pelvis and centre of gravity over the base of support; accommodation or correction of flexion at the hips and knees.

---

The robust design is ideally suited to classroom, therapy room or home environments.

---

Easy to set up and adjust, making an ideal solution for multiple users. Easy user transfer using standing slings or transfer belts.

## Totstander For Infants

The Totstander is a simple and easy to use upright stander. It can be used as an evaluation tool for therapists to assess a child's standing ability.

Available with flexible or rigid chest support, knee supports and sandals which ensure that the product can meet a large range of infants' needs.

Promotes active standing, movement and weight shifting depending on the child's level of ability.

**The Freestander is available in three sizes. The Totstander comes in one size.**

Freestander standard set up includes activity tray, bowl and cover, and a choice of: Pelvic belt; knee cups; sandals; flexible laterals. Freestander size 1 and Totstander come as standard in Meadow fabric. Freestander sizes 2 & 3 come in Mondeo Blue.

# LECKEY<sup>o</sup>

Established in 1983, Leckey is a globally recognised pioneer in the research and development of products that help adults and children with disabilities to go, do, enjoy and participate in everyday activities throughout the day and night.

We take a highly clinical approach to product design and development. Through in-depth clinical research studies with leading universities, and extensive trials with occupational therapists, physiotherapists, users and their families, we continue to develop posturally supportive, family friendly products for all day care, at every stage of life.

Through early intervention, childhood and adulthood Leckey's experienced team of designers, therapists and bioengineers work together to develop products that meet the clinical needs of the healthcare professionals and the social needs of the user.

To achieve this, we work with the healthcare professionals, the individuals and carers who use our products everyday. With their help, we create the dependable, durable, proven and high performance products that we are known for worldwide.
