

**LECKEY**®

**MAX**  
**WAVE**

## Features and Benefits

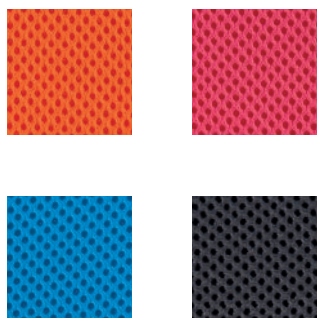

1. Contoured seat with 500mm seat width accommodates the large teen or young adult without appearing wide.
2. Larger femoral guides, 2 inches higher than standard, these will give additional support along the length of the leg and will provide better control of abduction.
3. ID Card, MP3 holder and bag hook - the Mygo MAX can be personalised and easily identified.
4. We have added a communication device bracket to accommodate the new range of Mount and Movers mounting systems.
5. Adjustment indicators have been added to the back spine, lateral support brackets and calf support lengths; this allows the therapist to record the optimum position for the client
6. Adjustable ramped leg guides can be added to the seat base to achieve the desired ramped angle.
7. Sophisticated and stylish upholstery, young people want to be seen in their cool, innovative Mygo MAX.

# mygoMAX

The **Mygo MAX** has been designed to offer all of the features and benefits of the **Mygo size 1** and **2** but with greater comfort, additional growth and more options to suit the **larger teenager** or **young adult**.
