

SEDEO PRO

HIGHLY ADJUSTABLE AND CONFIGURABLE SEATING

SEDEO PRO SEATING SYSTEM

GOOD SEATING STARTS WITH THE PERSONAL NEEDS OF THE CLIENT.
ERGONOMIC SEATING IS THE BASIS OF AN OPTIMAL MOBILITY SOLUTION.

It is all about creating a seating posture which makes it possible to achieve individual objectives related to physical support as well as social and practical challenges.

All of this is fully reflected in our new SEDEO PRO seating system. For moderate to complex clinical needs, the seating system combines a highly adjustable seat frame with an excellent choice of postural support options, including a wide range of:

- Seat & Backrests cushions
- Armrests, Side Guards & Thoracic Lateral Supports
- Legrests & Knee support pads
- Headrests

For the first time both JAY™ and WHITMYER™ are incorporated to offer advanced positioning capabilities. Truly modular in design, SEDEO PRO provides a new level of functionality, comfort and design. It can be easily customised to suit individual requirements and quickly adapted to changing needs of the user.

The SEDEO PRO seating system is comfortable and enhances independence in everyday life. The advanced high-end seating frame is fully adjustable, extremely configurable and fits on a wide range of Q-Series power wheelchairs, independent which base you prefer.

And for the wheelchair professional: knowing one is knowing them all.

SEDEO PRO

QUICK AND EASY TO ADJUST

CREATING THE RIGHT SEATING POSTURE FOR YOU – EASY TO DO FOR THE HEALTHCARE PROFESSIONAL

- Total flexibility / fully adjustable
- Intuitive adjustments. One tool adjustment (5 mm Allen key) / one simple working routine / self-explaining measuring scales / no extra parts are required
- Parts can be steplessly adjusted, repositioned, widened, turned to create the best support
- Drop out protections makes this easy for every one
- Adjustments can be done with the user in the chair, easily reachable from the side.

- 1 = Seat width: 38 - 56 cm**
- 2 = Additional armrest width: + 2 cm to - 2 cm each side**
- 3 = Seat depth: 40 - 56 cm**
- 4 = Back height: 44 - 62 cm**

SEDEO PRO SEATING FRAME

THE WIDE RANGE OF SEAT WIDTH AND SEAT DEPTH ADJUSTMENT MAKES THAT SEDEO PRO IS IDEAL FOR REFURBISHMENT. ALWAYS THE RIGHT FIT, YOU CAN'T ORDER WRONG.

HIGHLY CONFIGURABLE SEATING FRAME

FOUR BACK OPTIONS

Tool Angle Adjustable Back, 90°-120°
Stepless adjustment, easy to adjust with the user in the chair.

User Adjustable Manual Recline Back, 90°-130°
Shifting body weight made easy with gas spring. Operating lever for user adjustment under the armrest.

Powered Recline, 90°-130°
Comfortable and easy reclining with the press of a button.

Powered Recline with 100 mm Anti-Shear, 90°-150°
Its patented unique mechanism enhances ski protection and allows the positioning element and even chin control to stay in place during full recline operation.
