TB 0606

DATE ISSUED

1/9/19

BULLETIN DETAILS

Product Group:	JAY		
Models Affected:	JAY Active Cushion		
Effective Date:	01/09/2019	Serial No. Effective From:	N/A
Bulletin Subject:	Jay Active Cushion Discontinuation		

Five years ago Sunrise Medical discontinued the JAY Active Cushion, which was replaced with the Jay Xtreme Active, but we have supported spares in the meantime. From 1st September 2019 that will no longer be the case, as we will be extending this discontinuation to the spares also.

A direct replacement for this cushion can be found in the Jay Xtreme Active.

The JAY Xtreme Active is a lightweight and low profile wheelchair cushion for active performance and easy transfers. Designed to provide both pressure relief and stability to active users, the JAY fluid pad insert maximises skin protection and reduces shear on the active user. The dual cover system promotes air flow and dissipates heat and moisture effectively. High positioning can be achieved through retrofittable leg support components.

Please refer to www.sunrisemedical.co.uk, or contact your Area Sales Manager for more information
