

# Gemino Range 2020

Looking for a rollator that suits your active life and allows you to walk comfortably and confidently, indoors and out?

Then a Gemino rollator is the perfect choice for you.

See here our product updates 2020 per model.

WHAT'S NEW?

# Gemino 20

- New anatomical shaped handgrips, ensures an easy, safe and comfortable usage.
- Improved folding/unfolding locking mechanism, so you can safely lift your Gemino sideways and have a comfortable transport due to the patented click system.
- The push handles are now offering a detailed scale, so it is easy to adjust to everyone (no tooling necessary) and also offers a memory function.
- If you are taller, we can now offer a longer push handle kit (10cm).
- Due to the new clips, you can click on and off the net bag and the new advanced bag easy with only one hand. Another safety aspect is the reflective print on the bag, so that you can be seen in the dark.
- A reversed brake kit - the rollator immediately stops moving once the handle is released. This increases safety for you.
- One hand brake kit - you can easily mount the kit for left or right usage.
- New fixation bracket for back support, when it is time to take a break, you can sit safely on the spacious seat, at whatever height you need for the back support.

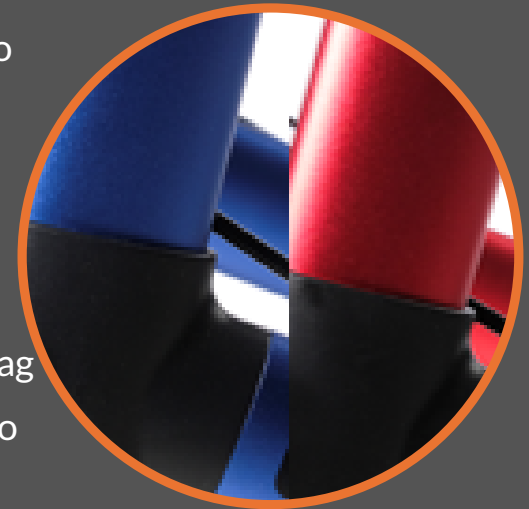

New anatomical shaped handgrips
