

WHERE YOU WANT TO BE.

ELITE² FAMILY[®] SERIES

COMFORT, RELIABILITY
AND SAFETY ON THE
ROAD

ELITE² XS

ELITE² Plus

INNOVATIVE ELITE² FAMILY SCOOTERS

An established scooter family with improved quality and service information. This increases the lifetime and improves reliability. Easy to ride, affordable and environmentally friendly - choose the scooter that suits your needs.

The Elite² family combines many advantages so that you can feel safe and comfortable at all times. With the familiar ergonomic wig-wag control levers the Elite² offers the much acclaimed hand / thumb control as a standard. On the LCD display you can easily read out the day's distance, total distance and driving speed. The correct sitting position can be achieved by adjusting the seat and steering column. Therefore the Elite² is the ideal travel companion with a maximum speed of 15 km/h, which will bring you safely to your destination.

OPTIMAL SAFETY

- Integrated CE-marked clear and bright LED lights
- A secondary brake with electronic stop function
- Easily visible break lever with electronic stop function ensures instant braking if required
- Strong magnetic parking brake

ELITE² XS

- Comfortable drive with adjustable rear suspension for every user on a variety of surfaces
- Ergonomic hand thumb control with LCD display and soft touch keys

ELITE² Plus

- Extra comfortable drive with extended adjustable rear suspension for every user on a variety of surfaces
- Steers just like a car, light and easy
- Ergonomic hand thumb control with LCD display and soft touch keys or optional twist controller (hand throttle)

HYBRID TYRES

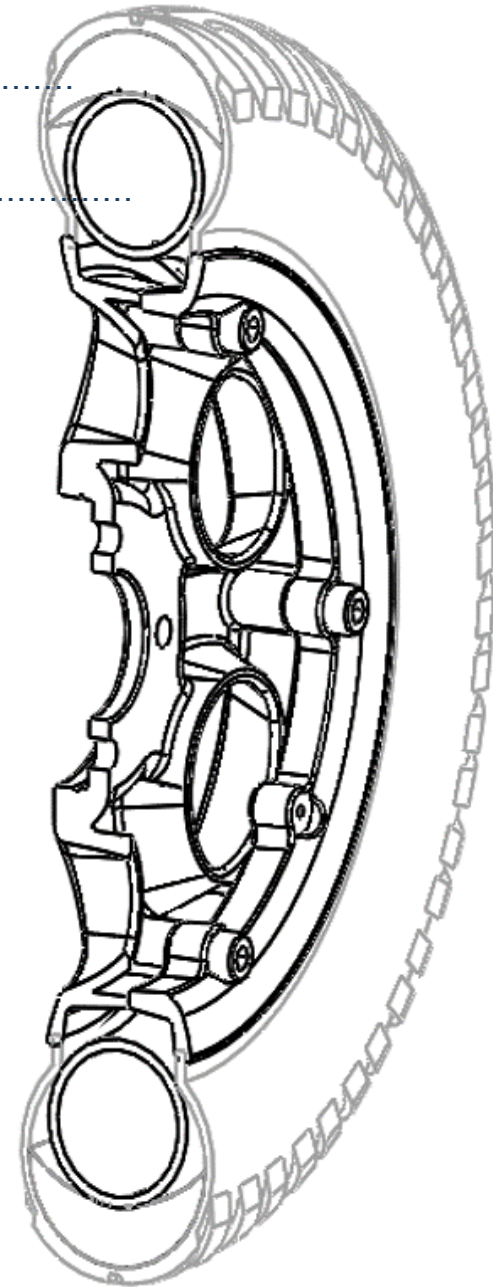

Low risk of punctures due to hybrid tyres. The Elite² family series is characterised by the particularly robust hybrid tyres. This not only reduces costs for the user. The dealer can also profit enormously from this. Hybrid tyres are more stable and thus reduce the need for service appointments.

The tyres run much more smoothly and, especially on uneven ground, much more quietly as they can absorb unevenness well. It is therefore puncture-proof and makes the day trip easier - this increases safety and reduces the risk of getting stuck with a flat tyre.

A tyre technology with greater safety and comfort for carefree driving fun.

Solid insert

Inner air tube

A close-up, low-angle shot of the front wheels of two scooters parked on a cobblestone path. The wheels are black with a deep, wavy tread pattern. The scooter on the right has a silver-colored fork and a black fender. The scooter on the left is partially visible, showing a black fender and a black suspension spring. The background is a blurred green lawn and a stone wall.

There is a wide range of options
and accessories that will provide
the scooter with all the
comforts, needs and your personal
preferences.

DETAILED FEATURES

Brake lever in red for better and faster recognition (for Elite² Plus & Elite² XS)

Full front bumper as standard to reduce damage to the front (e.g. against doors) (for Elite² Plus & Elite² XS)

Hybrid tyres (for Elite² Plus & Elite² XS)

LCD DISPLAY

The Elite² family scooters has ergonomically designed handles and the intuitive ergonomic finger and thumb operated wig-wag control. The handlebar is angle adjustable in to ensure comfort and good posture while driving. The clear and easy to operate display is fitted with a reliable battery - indicator, speedometer, odometer and hour meter.

LUXURY SEATING

The multifunctional options are suitable for every trip

- Easily adjustable back angle
- Height adjustable armrests
- Fully adjustable lumbar support
- Sliding and turning mechanism for easy transfers

COMFORT ON EVERY TRIP

The Elite² family advanced seating solution takes comfort to the highest level – from the seat height, depth and recline adjustments, to the flip up, width, angle and depth adjustable comfort armrests. The armrest can be flipped back to facilitate transfers and can be also easily angle adjusted for optimum positioning. Every feature has been designed for comfort.

- **Moving the cockpit**

- **360° swivel seat enables comfortable transfers**

- **Flip back armrests**

ELITE² FAMILY[®] SERIES

DESIGN AND MAXIMUM SAFETY

Maximum safety on the road

To ensure the visibility on the road, the Elite² family scooters incorporates front, rear, indicators and brake LED lights. It also features mudguards, hand brake, anti-tip wheels and rear bumper as standard. All in a sturdy structure, approved for users up to 175kg.

ELITE² FAMILY[®] SERIES

Comfort, reliability and safety on the road.

True to this theme, we have developed the Elite² family. It focuses on the improvement of existing scooters. The focus here is on rental and reuse. This enables dealers to keep existing parts - sustainable, sensible and cost-effective.
