FOLDING

VERSATILE AND
MODULAR
DESIGN ADAPTS
TO YOUR
NEEDS

Key Features and Specs:

- Ultra-lightweight folding chair in swing-away or fixed front frame
- Modular frame option. Can upgrade from standard to HD if weight increases
- One free growth kit within first 5 years
- Transit option available
- Seat width 18" – 24"
- Seat depth up to 22"

QUICKIE 2[®] HD

Modular Frame Design

The versatility of the QUICKIE 2 HD is in its modular wheelchair frame that adapts with you as your function, body, and environment change. Independent, interchangeable frame components accommodate changing conditions without having to replace the entire wheelchair. You're always getting the best from your QUICKIE 2 HD.

7000 Series Aluminum

7000 Series Aerospace Aluminum makes the redesigned crossbrace more rigid, stronger, and lighter. The stronger frame results in an increased weight capacity of 136 kg. (159 kg. for HD), while the overall chair weight is reduced.

HD weight capacity

159 kg.

Standard weight capacity

136 kg.

FOLDING

HIGH STRENGTH MODULAR FRAME

Key Features and Specs:

- A variety of interchangeable frame components allow the M6 to adjust as your needs change
- Seat width 22" – 30"
- Seat depth 18" – 22"
- Seat height 17" – 20"
- Weight 24 kg. with legrests

QUICKIE M6[®]

Modular, High-Strength Frame

The M6's modular frame, modeled after the industry favorite QUICKIE 2, features high strength steel for increased wheelchair durability.

Locking Crossbrace and Stabilizer Bar

The M6 utilizes a double locking crossbrace and stabilizer bar to minimize frame flex and create a more rigid ride quality. This ensures that more energy transfers directly from your arms or feet to the axles for the most efficient propulsion.

**HD weight capacity
295 kg.**

RIGID

A CLASSIC QUICKIE RIGID WHEELCHAIR

Key Features and Specs:

- Heavy duty option up to 159 kg. through Built-4-Me
- Seat widths up to 20" standard, and more available through Built-4-Me
- Seat depths up to 22" standard, more available through Built-4-Me

QUICKIE GP[®] SERIES

The Ultimate Rigid Frame

With over 25 years of loyal users, the GP's hand-crafted box frame has stood the test of time. Its one-piece construction exceeds QUICKIE's superior standard of quality and delivers an unmatched rigid feel to your wheelchair.

Tapered and Swing-Away Front Frame Options

The GP's multiple front frame options and angles give you the positioning you need without having to sacrifice a rigid frame wheelchair. Choose between the standard GP, tapered GPV for increased maneuverability, or the GP swing-away for easy transfers and the option of elevating legrests.

**HD weight capacity
159 kg.**

(Available through Built-4-Me)

**Standard weight capacity
113 kg.**

TILT-IN-SPACE

SUPERIOR STANDARD FOR ROTATION- IN-SPACE TECHNOLOGY

Key Features and Specs:

- One of the lightest weight tilt-in-space wheelchairs today (18 kg.)
- Fixed or width-adjustable strut tubes
- One free growth kit within first 5 years (only on non-SE models)
- Ultra low seat-to-floor height as low as 12.5"
- Seat width up to 24" and seat depths up to 22"
- Transit option available on HD model
- Reverse configuration available

QUICKIE IRIS[®] HD

Power Tilt Option

The Power Tilt option gives the user more control over the position of their body in space and improves comfort by assisting with sitting tolerance. It provides more independence to participate in daily activities and to engage more with the world and others. The Power Tilt is available for the IRIS, IRIS heavy duty.

Attendant Control

Allows the caregiver to give control of the tilt function to the user. The battery gauge is displayed on the top of the control so you never have to guess when it's time to charge. Ability to conveniently hang the attendant control anywhere on the chair.

HD weight capacity
181 kg.

Standard weight capacity
136 kg.

Toggle Switch

Can be mounted vertically or horizontally depending on needs. Charging port is conveniently located on the toggle switch for easy access.

POWER

THE ULTIMATE EXPERIENCE

Key Features and Specs:

- Seating Options:
 - SEDEO PRO: Up to 205 kg.
- QUICKIE 4-pole motors generate more power than previous generations
- ISO 7176-19:2008 Occupied Transit Approved and included at no extra charge on all configurations, including heavy duty
- Seat-to-floor height as low as 16.5"
- Choice of 60 AH or 72 AH batteries
- Seat widths up to 26"
- The HD uses lower speed, higher torque motors that are able to perform to our high standards even with the increased weight capacity up to 205 kg.

QUICKIE Q700® M HD

QUICKIE SEDEO PRO

The SEDEO PRO seating system combines a highly adjustable and configurable seating frame with an excellent choice of support options including optimized integration with JAY® components.

HD weight capacity

**Q700 M HD with SEDEO PRO
weight capacity 205 kg.**

**Standard weight capacity
160 kg.**

Jay Fusion™ with CRYO Technology

JAY® Fluid with Cryo Technology is a patent-pending, revolutionary wheelchair cushion material that actively cools a patient's seated skin surface for up to 8 hours* while evenly distributing pressure, reducing shear, and lowering the risk of moisture.

Up to 150kgs.

Up to 227kgs (22-24" widths).

Jay Union™

The JAY® Union™ is a versatile, comfortable, skin protection and positioning cushion composed of a dynamic fluid and foam layering system, moisture resistant inner cover and an anti-microbial outer cover.

Up to 150kgs.

Up to 227kgs (22-24" widths).

Jay J2™ Deep Contour

The JAY® J2™ Deep Contour is a pre-contoured foam cushion that features a 3" deep pelvic loading area, a JAY® Flow™ fluid tripad for superior skin protection and an easy to modify base for optimal stability.

Up to 150kgs.

Up to 227kgs (22-24" widths).

Jay Ion™

The JAY® Ion™ is a comfortable skin protection and positioning cushion composed of a multi-layered foam base, moisture resistant inner cover, and an anti microbial outer cover.

Up to 150kgs. Up to 227kgs (22-24" widths).

Jay Climazone™

The JAY® ClimaZone has revolutionary construction that reduces pressure using air suspended fibres that promote airflow and integrated Coolover fabric to regulate skin temperature. It's the go-to-cushion to manage heat and moisture at the seated surface - also offered for bariatric size and weight capacities. Up to 254 kg.

J3™ PLUS Up to 227 kg.

Superior positioning and support for bariatric clients

The Jay J3 Plus Wheelchair Backrest is designed for bariatric clients. This backrest addresses the pelvic and trunk stability of our larger clients with widths up to 26" and weight capacity of 227 kgs

- Available up to 227 kg. capacity
