QUICKIE QS3 X

THE STARTING POINT FOR ACTIVE MOBILITY

The **QUICKIE QS3 X** brings the proven performance and modern design of the QS-range into an accessible wheelchair.

Its smooth **FreeFold™** design makes folding, lifting, and transport easy, while the **lightweight** frame delivers smooth, responsive driving with less effort.

Built-in adjustability, clean styling, and a choice of frame colours create a comfortable, personalised experience that moves beyond the traditional clinical look. The QS3 X combines **contemporary design** with everyday practicality.

With a focused range of options, the QS3 X **simplifies setup**, supports faster delivery, and helps riders access mobility sooner.

FOLDING

SMOOTH FOLDING, EVERYDAY CONVENIENCE

The QS3 X brings proven **FreeFold™** performance to a simplified 2-arm cross brace, delivering folding and unfolding performance comparable to premium folding wheelchairs. Effortless to operate, it can be **folded with just one finger** for smooth, simple handling.

LIGHTWEIGHT

LIGHT TO HANDLE, EASY TO TAKE ALONG

With a **transport weight from just 9kg**, the QS3 X feels about the same to lift as a fully packed cabin suitcase, making it easy to push, lift, and transport while helping to reduce strain throughout the day. Whether you're heading out for a walk, visiting friends, or travelling by car, its lightweight design makes handling simple - so you can pack up quickly and go.

DUAL ARM CROSS BRACE DESIGN

The dual-arm cross brace design gives the QS3 X a clean, modern look while helping reduce overall weight. The result is a wheelchair that feels lighter to handle, less bulky in everyday use, and stable with every push.

FOLDING FIXATION

The optional folding fixation snap keeps the QS3 X securely folded during transport and storage, making handling easier and more convenient when it is not in use.

PERFORMANCE

EASY TO PROPEL

Designed for smooth, efficient movement, the QS3 X delivers straight-line tracking and a responsive, rigid-feel ride. Its stiff frame and stable wheel alignment help reduce pushing effort for easier, more controlled propulsion throughout the day.

BUILT FOR EVERYDAY RELIABILITY

Built from 6000 series aluminium, the QS3 X combines durability with long-term reliability. Its corrosion-resistant frame is designed to handle everyday life while maintaining a clean, modern look over time.

FORGED CASTOR LINK

The integrated castor design reduces weight, vibration, and service complexity while improving propulsion efficiency and creating a sleek, modern look.

CONFIGURABILITY

CHOOSE THE SETUP THAT FITS YOUR NEEDS

Swing-Away

The Swing-Away frame allows the footrests to move easily to the side, supporting more comfortable transfers. It also helps position the wheelchair closer to beds, chairs, or vehicles and reduces the overall transport size for easier storage and handling.

HIDDEN ADJUSTABILITY

DESIGNED TO FIT CHANGING NEEDS

Life changes, and your needs can change with it. Alongside seat height, centre of gravity, backrest height, backrest angle and camber adjustment, the seat depth can be adjusted within a 20mm* range. This helps the QS3 X adapt to different needs and offers practical flexibility over time - now and in the future.

The new axle plate is lighter, offers a cleaner look, and provides full rear seat height adjustment with support for multiple camber positions.

*starting from seat depth 400mm

DESIGN

DESIGNED TO FEEL AS GOOD AS IT LOOKS

Confidence matters. With its modern appearance, the QS3 X feels right at home wherever you go. It's designed to look less clinical and more like something that fits your lifestyle, so you can move through your day feeling comfortable and self-assured.

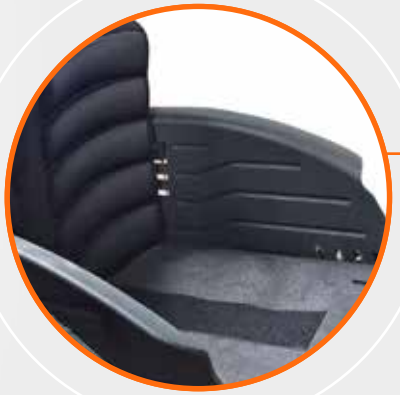
Choose from **7 frame colours** to personalise your QS3 X. From subtle to more expressive options, the colour range lets you create a look that suits your style.

- Matte Black
- Metalic Shadow
- Solar Orange
- Storm Grey
- Midnight Blue
- Red Pepper
- Silver Ore

OPTION HIGHLIGHTS

DESK SIDEGUARD

Flip up and removable, armpad available in two sizes



NEW COMPOSITE SIDEGUARD WITH FENDER

ANTI-TIPS SWING AWAY OR PLUG-IN

TIP ASSIST WITH CRUTCH HOLDER OPTION

DESIGN ELEMENT TO CLOSE THE REAR FRAME
