FITTING PROCEDURE

Step 1 - Attaching the trapezoid adapter (C) to the seat plate (D).

1. Define the position of the trapezoid adapter (C) on the seat plate (D).
2. Mark the drilling points using a centre punch (2).
3. Drill the holes using the drill bit (3) and drill (6).
4. Fix the trapezoid adapter (C) with the fitting accessories (8-10) and tools (4-6). Set the tools to 7 Nm.

Step 2 - Attaching the trapezoid adapter (B) to the seat pan (A).

1. Define the position of the trapezoid adapter (B) on the seat pan (A).
2. Mark the drilling points using a centre punch (2).
3. Drill the holes using the drill bit (3) and drill (6).
4. Fix the trapezoid adapter (B) with the fitting accessories (8-10) and tools (4-6). Set the tools to 7 Nm.

!!! WARNING - SAFETY NOTE !!!
WHEN ATTACHING THE TRAPEZOID ADAPTER ONLY
USE THE STANDARD COMPONENTS SUPPLIED

To fit the trapezoid adapter
to your ZIPPIE RS you need the following.

Tools:

1. Hammer
2. Centre punch
3. Metal drill bit min. D6.0 - max. D6.5
4. Torque wrench with 10mm socket
5. Bit socket for drill, size 4
