

FORTRESS CALYPSO

Compact scooter

*Comfortable and
manoeuvrable
Safe driving
Easy to operate
Attractively priced*

Fortress Calypso. The benefits of a big scooter without the size. The Fortress Calypso proves that a compact scooter can also provide a good level of driving comfort. This highly manoeuvrable vehicle is equally suitable for use around the house, for shopping at the local market or for an enjoyable afternoon in town. Driving a Fortress Calypso is a pleasant and safe experience due to the front and rear suspension and newly designed steering concept. With a battery capacity up to 60 Ah and a maximum speed of 12 km/h (7.5 mph), this scooter will get you around in comfort and style. And for those who want to cover larger distances, this compact scooter can be easily disassembled and transported by car. The Fortress Calypso is a "value for money" compact scooter, offering perfect balance of indoor manoeuvrability and outdoor performance.

FORTRESS CALYPSO

Comfortable and manoeuvrable

Enjoy the comfort of both front and rear suspension, an ergonomic steering concept and an adjustable seat. Compact dimensions enable high manoeuvrability.

Safe driving

The newly designed steering concept makes taking turns easy and even offers protection for the hands. For extra safety and stability there is a fixed position front basket, front bumper, good lighting and integrated brake light.

Easy to operate

There is a highly convenient dual control operating panel plus stepless tiller positioning for accessibility. The scooter is compact and easy to disassemble for transportation.

Attractively priced

An attractively priced compact scooter with a good comfort level. This is indeed, value for money.
