

TROPHY

Comfort scooter

*Ultimate comfort
Proven quality
A high standard
Perfect driving
characteristics*

Trophy. One of a kind. We understand that for many scooter users, comfort is absolutely essential. Precisely for this reason, the Trophy couples a unique suspension system with optimal ergonomics, ensuring the ultimate in comfort. Fully adjustable, this scooter can be tailored to suit any specific requirement. A choice of 3 or 4 wheels will ensure that every requirement is satisfied. This means perfect driving, particularly for people with severe back problems, rheumatism or a limited hand function. But besides a smooth and comfortable ride, the Trophy also offers maximum stability. Compact design and ultra-light steering ensure excellent manoeuvrability. The 80 Ah battery option offers high speed and a huge range in complete safety. Of course, the standard specification of this top-quality scooter is extremely high and with additional options such as adjustable leg rests and a hi-lo facility, the Trophy puts the traditional scooter in a completely new perspective. All of this and it also looks great!

TROPHY

Ultimate comfort

The unique Trophy suspension system and optimal ergonomics provide maximum comfort.

Proven quality

This is the latest of a long established range of scooters with which quality and safety are guaranteed. It is simple to keep both hands on the wheel when driving, if you are able, but easy and safe if you can only use one hand. The reliable battery indicator and odometer are totally reassuring.

A high standard

The Trophy has a high standard specification plus a large range of accessories, including an attractive storage pack. For even more comfort, a full range of seating options and leg rests are available.

Perfect driving characteristics

With a powerful motor, the Trophy ensures smooth and stable driving at all speeds. Excellent manoeuvrability with compact design and ultra-light steering. Steers just like a car, with 3 wheels or 4.
