

J3 BACKS

UPDATED WITH NEW FEATURES!

THE BEST JUST GOT BETTER! A series of new improvements to the JAY J3 backrest range makes this the most versatile JAY backrest to suit all shapes, sizes and lifestyles. Improvements have been introduced on the mounting hardware, comfort curve on Low Thoracic height shells and accessory bag. **A BACK FOR EVERY USER!**

Accessory Bag

Compact Hardware

Compact HD Hardware

// NEW ACCESSORY BAG

- New stylish and durable accessory bag to safely store your essential items.

// NEW COMFORT BEND FOR LT BACKS

- This rearward flared edge is designed to reduce the pressure and discomfort at the top edge when leaning back to dress, function or alter position for pressure relief.

// NEW COMPACT MOUNTING HARDWARE

The Compact Mounting hardware has been redesigned tailored to the needs of active users. (standard on LT and MT)

- ✓ Slim and more compact (25% lighter than the standard hardware and the lightest on the market)
- ✓ Focused on lightweight and aesthetics.
- ✓ Reduced wiggle.
- ✓ Easy to mount and to adjust.
- ✓ Adjustable in width, depth, angle and height.
- ✓ Transit tested and approved.
- ✓ Max User Weight 136kg

// NEW HD COMPACT MOUNTING HARDWARE

The Heavy Duty Compact Mounting hardware tailored to the needs of more passive users. (standard on UT and SH)

- ✓ Focused on greater stability and more adjustments for more passive users.
- ✓ Reduced wiggle.
- ✓ Easy to mount and to adjust.
- ✓ Adjustable in width, depth, angle and height.
- ✓ Transit tested and approved.
- ✓ Higher user weight capacity (225kg)
