## **SALSA Mini KIDS**

THE NARROWEST  
PERFORMANCE  
MID-WHEEL DRIVE  
IN THE WORLD!

PERFECT FOR KIDS!

 **SUNRISE**  
MEDICAL.

## INTRODUCING...

---

The number one choice, Zippie Salsa M<sup>2</sup> Mini Kids! Say no more to compromise for indoor manoeuvrability and outdoor performance. The Salsa M<sup>2</sup> Mini kids seating system was purpose built to fit kids while as grow. The Salsa M<sup>2</sup> Mini Kids empowers kids to reach their full potential.

Introducing the world's narrowest mid-wheel drive performance powerchair with a chassis width of only 52cm – That's 9cm smaller than our market leading Quickie Salsa M<sup>2</sup>.

Unlike other kids indoor powerchairs with the Salsa M<sup>2</sup> Mini Kids you don't have to compromise on outdoor performance! The Salsa M<sup>2</sup> Mini kids uses exactly the same drive base as the Salsa M<sup>2</sup>, just narrower – so all of the great features you get on a bigger outdoor powerchair are packed into the world's narrowest mid-wheel drive powerchair.

## INDOOR AGILITY...

---

The Salsa M<sup>2</sup> Mini is the narrowest performance mid-wheel drive in the world. This means it can tackle the tightest indoor environments but that's not all...it's ideal for:

- School buses & wheelchair adapted vehicles – narrow, ultra low seat to floor height and the anti pitch technology not only means getting in and out of WA vehicles is easy, but you'll also sit comfortably and have a stable ride.
- Small Houses & cramped class rooms – with tight floor ways and condensed layouts.
- Through floor lifts – short, narrow and lighter than any other performance mid-wheel drive powerchair – from 100kg means it's ideal for through floor lifts and hoists where other chairs are too big or heavy.

## OUTDOOR PERFORMANCE...

---

Evolved from highly-advanced technology the Salsa M<sup>2</sup> Mini Kids has proven, patented technology, together with a series of high-performance options.

- Go explore with Zippie's anti-pitch technology eliminates pitching on slopes, and with all your weight located directly above the drive wheel to maximise traction, you've never been in a safer driving position.
- Enjoy a smooth and stable ride, even over rough terrain, with Zippie's patented all-wheel suspension - six independently suspended wheels absorb all those bumps.
- More miles per charge! Take advantage of the ultra-efficient 4mph speed option powered by 36Ah batteries.
- Whatever your performance or practical requirements, the Salsa M<sup>2</sup> Mini's range of options gives you the optimum balance between an exhilarating drive and great efficiency.

# RIDE IN STYLE...

At Zippie we don't believe in compromise with style that's why the Zippie Salsa M<sup>2</sup> Kids is our stylish looking powerchair for kids yet!

The Salsa M<sup>2</sup> Mini Kids blends Zippie's hallmarks of beautiful sleek design with a modern and sporty stance.

The sleek shroud is available in four different colours (red, blue, white or black) or you can have the exact colour you want through our bespoke Built-4-Me department

The castor arms have been designed with a fresh, modern and slick look and the matt black finish is a great accompaniment for any shroud colour

# FUNCTION...

The Salsa M<sup>2</sup> Mini is so stable that we offer our full range of powered options. That means that you can still choose the options designed for your clinical needs.

- Powered Tilt – pressure redistribution throughout the day can be achieved through a tilt option. It can also be used when hoisting into the chair to guide the pelvis to the back of the seat with ease.
- Powered Lift – is great for raising them up to be at eye-level with family and friends but it can also be used to improve their reach around the house.
- Powered Recline – can often be used to achieve a relaxed position throughout the day. If they are spending a lot of time in their chair, then a little recline can allow you to change their position every now and again.

# TAKE A SEAT...

The Salsa M<sup>2</sup> Mini is our most dynamic powered wheelchair to date. It made sense that we made it available for all ages.

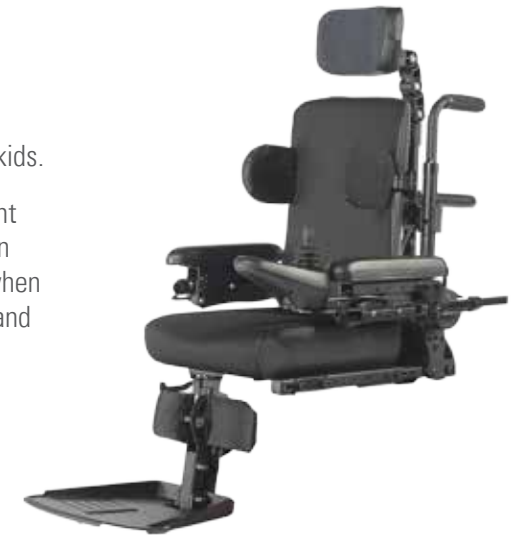

## Kids Seat...

Our Kids seat is designed especially to offer a wide range of adjustments exclusively to suit kids.

The kids seat offers a wide range of adjustment which begins at 12" and goes through to 16" in both width and depth. This means that even when your child grows, the seat will cater for them and last much longer than the classic kids seating.

## Too Small?

Don't worry the Salsa M<sup>2</sup> Mini is also available in both teens sizes (12" - 16" width 16" - 20" depth) and adult (16" - 20" width & depth).
