# SHARK RS

RACING  
HANDCYCLE

The choice of champions. The Shark RS is a competition handbike designed to allow for the best individual positioning. Enclosing the driver, when force is introduced, it's converted directly into propulsion.

## Key Features

- ▶ **Innovative frame design:** The low centre of gravity and wide wheelbase enables higher cornering speeds whilst maintaining maximum stability.
- ▶ **Fork:** Firmly welded to the individual customer requirements, the force is diverted directly into propulsion, providing the ideal boost for your next race.
- ▶ **The Rear Axle** fixation with forged parts provides maximum stability with low weight. The Axle Tube is available in aluminium or carbon fibre (option).
- ▶ The innovative performance backrest guarantees maximum ergonomic comfort.
- ▶ GEARS: 3x11

ATHLETE RECOMMENDATION: INTERMEDIATE TO EXPERT

# SHARK RT

RECREATIONAL  
HANDCYCLE

For leisure and semi-professional athletes. Delivering the same outstanding performance as the Shark RS, the Shark RT offers more adjustability and flexibility, which means you can achieve your optimum position to rule the road.

## Key Features

- ▶ **Integrated lower leg length adjustment** for individual user needs. Simple to adjust and very clean look.
- ▶ **Innovative backrest** provides maximum performance thanks to its ergonomic adjustability. The independently adjustable back elements help to enhance the performance of the driver and allow for optimal power transfer.
- ▶ **The front fork's** height and depth can be adjusted in several positions. This provides greater flexibility for all users.
- ▶ **Lightweight parking brake** secures the Shark RT from rolling forwards or backwards. This allows for safe transfer in and out of the handbike.
- ▶ GEARS: 3x10

ATHLETE RECOMMENDATION: BEGINNER TO INTERMEDIATE
