

LIFE FAMILY

FIND THE ONE TO SUIT
YOUR LIFESTYLE

THE LIFE FAMILY

LIVE LIFE TO THE FULL.
THE EXTENDED LIFE FAMILY GIVES
YOU MORE FREEDOM THAN EVER.

The LIFE family impresses with its lightweight, robust, modern and highly adjustable wheelchairs.

With the choice of a rigid frame for performance or a folding frame for easier transfers, it is easy to find a LIFE to suit you.

LIFE

THE WAY OF
MODERN LIFE

THE EASY LIFE

Live life to the full. Go out and explore the world.
Whatever your plans, your LIFE is ready.

Available as a fixed front or swing-away, the Quickie Life can cater for a number of needs and requirements in a foldable wheelchair. The Life utilizes a long established design that is proven to provide a very robust wheelchair and energy efficient set ups at a maximum user weight up to 140 kg.

But why stop there? Personalize your LIFE by selecting from a wide range of side guards, armrests, hangers, footrests, wheels and handrims. Or define your style with a choice of 22 frame colours and anodized parts.

Options and features of the LIFE – Configure this folding wheelchair to your individual needs. For further information on product options please check the LIFE order form.

// SEAT HEIGHT ADJUSTABLE IN SEVEN POSITIONS

With a camber from 0° to 4° and 4 centre of gravity positions (from the very active 83 mm to the more stable 23 mm).

// MODERN DESK ARMREST

Improved rigidity with a stylish design.

// FOLDING FIXATION

Operated with one hand, keeps the chair securely folded.

// MODERN SIDEGUARD DESIGN

The redesigned sideguards are available in aluminium or as stylish carbon version.

// ACTIVE SWING-AWAY FRONT

The swing-away hangers are now also available as 90° version for a more compact and sporty design.

// SMALL FOLDING PACKAGE

Options like the fold-down backrest or the removable swing-away hangers are leading to a very compact folding package.

// FLIP UP PLATFORM FOOTREST

Lightweight, angle and depth adjustable.

// INDIVIDUAL PERSONALIZATION

Define your style with a choice of three different anodized style packages for the fork & axle plate.

LIFE R

THE PERFORMANCE FOR THE
SPECIAL MOMENTS IN LIFE.

THE ACTIVE LIFE R

Rigid, durable and robust, the LIFE R is designed to enhance your LIFE now and for years into the future.

Whatever the day throws at you, the energy efficient design of the LIFE R means you can focus on what's important to you.

Available as fixed front or swing-away, the new LIFE R has a modular design which means the front of the frame can be changed to increase seat depth, or alter the frame type.

The fixed front frame is available in different angles (75°, 85° and 85° with inset) and four frame lengths. The swing-away frame is available in three angles (70°, 80° and 90°) and a choice of hangers and three frame lengths.

// SEAT HEIGHT ADJUSTABLE IN SEVEN POSITIONS

With a camber from 0° to 4° and four centre of gravity positions (from the very active 83 mm to the more steady 23 mm).

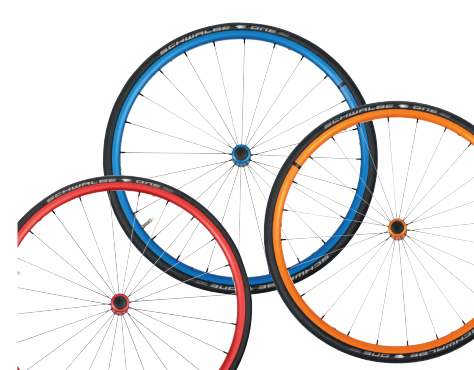

// UPDATED KNEE LEVER BRAKE

Easy to operate brake with swing away lever for easy transfers.

// ANGLE ADJUSTABLE BACK (OPTIONAL)

Lightweight and simple to adjust. Provides 20° of angle adjustment from -12° to +8° in 4° increments.

// ANODIZED 24" REAR WHEELS

Accentuate your colour scheme further by matching the rim and hub of your 24" rear wheel with 3 anodized colour selections.

// INDIVIDUAL PERSONALIZATION

Define your style with a choice of three different anodized style packages for the fork & axle plate

// SURGE® LT HANDRIMS

Its Gripton rubber strip on top of the ergonomic oval shaped rim offers maximum traction.

// FOOTPLATE LOCK

This footboard remains always in position even when you are driving over rough terrain.

// ACTIVE SWING AWAY HANGERS

Offers a modern and active look. Available in 70°, 80° and 90° angle.

LIFE i

THE RIGHT ADJUSTMENTS
FOR INDIVIDUAL NEEDS.

THE ADAPTIVE LIFE i

Extensive adjustability makes LIFE i the ideal choice for users with progressive conditions.

Comprehensive adaptability ensures that the driving profile of the LIFE i is always in tune with changing user requirements.

Stroke patients are quite often affected by a hemiplegia. One arm drive and wheel lock option, half side tray and hemiplegic armrest are supportive options in this case. Also the low seat to floor height is intended for foot propelling users.

Our angle-adjustable and reclining backrest combined with the JAY back range provides optimal trunk positioning for clients with changing needs or core weakness. With its small increments of 10 mm for front and rear seat height the seat angle can be constantly adapted to changing needs.

LIFE i

THE ADJUSTABLE

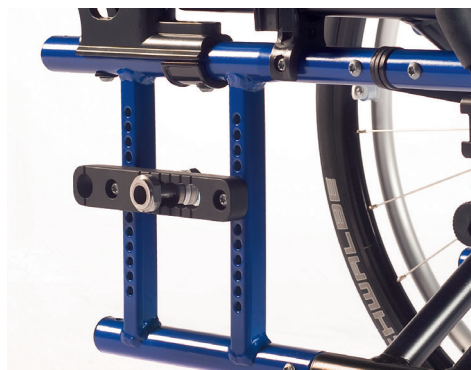

Options and features of the LIFE i – Configure this rigid wheelchair to your individual needs. For further information on product options please check the LIFE R order form.

// EASY FRONT SEAT HEIGHT ADJUSTMENT

The full range of front seat height adjustment from 380 to 540 mm is designed for the neurological therapy. Ideal also for foot propelling users.

// MULTI-ADJUSTABLE REAR SEAT HEIGHT UNIT

With one unit the rear seat height, centre of gravity and camber can be easily adjusted.

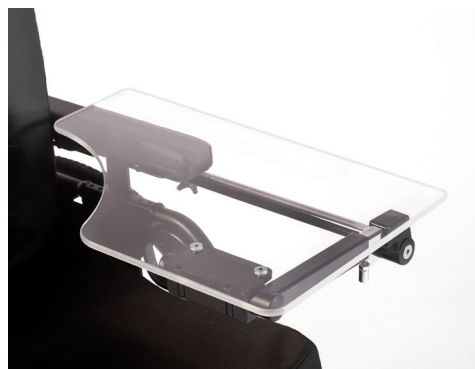

// PHYSIOLOGICAL SEAT DEPTH GROWTH

The seat depth can be adjusted by moving the back tubes and the seat sling can be extended or shortened accordingly up to 40 mm.

// ONE-HAND OPERATION HEIGHT ADJUSTABLE ARMREST

The one-hand operation height adjustable armrest facilitates the height adjustment of the armpad especially for hemiplegic users.

// HALF SIDE TRAY

Half side tray e.g. for clients who suffered a stroke. Half Trays are available for the left or right side.

// HEMIPLEGIC ARMREST

This armrest provides good positioning of the arm especially for hemiplegic users.

// TRUNK SUPPORT

For higher trunk stability. The laterals are height, angle and depth adjustable.

// JAY BACKS AND CUSHIONS

The LIFE i can be equipped with the Jay products for advanced positioning.
