READY TO GO IN SECONDS

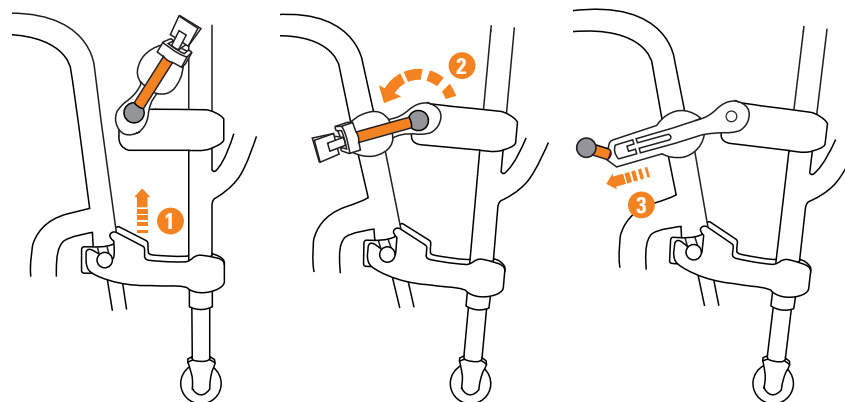

The Attitude bike's clever docking mechanism attaches to your wheelchair in a matter of seconds... and it's just as quick to remove. Ideal for when you don't have time to lose or are in a hurry.

After de-docking only two small pins (170 g) remain and your wheelchair.

The docking mechanism on the Attitude bike is so simple, it just locks securely to the front of your wheelchair – without any need for parts or cluttered wiring around your knees. So there's nothing coming between you and the comfort that you've come to expect from your wheelchair.

- 1 Lock in the docking pins.
- 2 Swing the upper docking connector downwards.
- 3 Lock the connection by pulling the red lever.

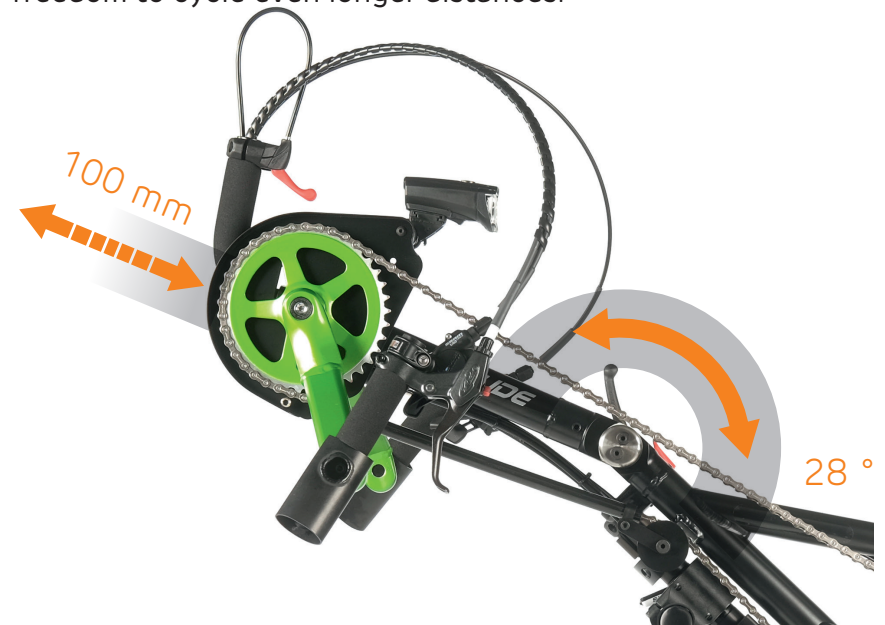

Ready to run the Attitude docking video!

SET YOUR IDEAL CRANK POSITION

The new depth and angle adjustment of the Attitude Manual and Hybrid hand bike ensures an ergonomic crank position. This is important for an energy efficient driving experience and gives you the freedom to cycle even longer distances.

MANUAL – THE SPORTY

The Attitude Manual is ideal for those looking to improve their strength and overall stamina through recreational cycling. 20" front wheels provide an exceptional driving performance which is perfect for all terrains. And the powerful disk brake allows a smooth speed control. Lightweight and easily manoeuvrable, it's the perfect compliment to your active wheelchair.

Depth- & angle adjustable crank position.

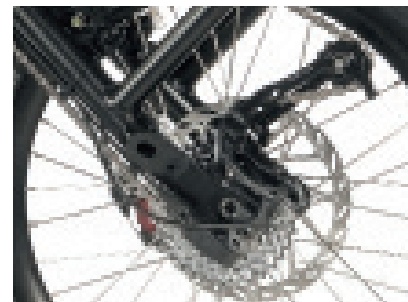

ATTITUDE

Manual

MANUAL | HYBRID | POWER

// GEARING (1X11)

11 speed gearing is perfect for all terrains. The disc brake allows a smooth speed control.

// TRIGGER SHIFTER

The easy one hand operation trigger shifter allows quick and easy gear shifting.

// RIDE IN STYLE

The crank and the chain protection can be chosen in a different colour.

// PARKING BRAKE

Easy operating parking brake with lock in function as standard on all Attitude add-on hand bikes.

HYBRID – THE ALL-ROUNDER

The Attitude Hybrid combines all of the health benefits of manual cycling with the reliability of powered propulsion. Helping to reduce fatigue, the powered motor can be engaged whenever you encounter a tricky hill-climb or just to provide you with that little extra speed when you need it.

Depth- & angle adjustable crank position.

ATTITUDE

Hybrid

MANUAL | HYBRID | POWER

// LITHIUM-ION BATTERY

16 Ah Lithium-Ion battery for improved range performance. The display shows the battery capacity remaining.

// STRONG 250 WATT MOTOR

The powerful 250 watt motor supports up to a 23 kph top speed, ideal for hilly terrain or longer distances.

// ALWAYS IN CONTROL

With the MMI from Neodrive you have always the full control about lots of parameters like speed, distance or battery charge.

// ERGONOMIC V-CRANK

The ergonomic handle position prevents contact with your body particularly when manoeuvring around corners.

POWER – THE STRONG

The Attitude Power provides you with 100 % powered propulsion from your comfort of your wheelchair. Relieving the strain on your upper-body, there's no need to worry about hill inclines or travelling distance – so you're free to relax and enjoy the ride.

ATTITUDE

Power

MANUAL | HYBRID | **POWER**

// STRONG 250 WATT MOTOR

Powerful 250 watt motor with 15 kph top speed.

// ADJUSTABLE HANDLE-BAR

The ergonomic handle bar is height- and depth adjustable via the stem. The display shows a range of driving options.

// LITHIUM-ION BATTERY

9 Ah or 13,4 Ah Lithium-Ion battery for large driving range. Lithium-Ion batteries have no memory effect.

// INTEGRATED FRONT LIGHT

The bright front light is powered directly from the battery.
