

DELPHIN

Independence where you want it.
Support when you need it.

The new Delphin convinces with a new modern design in a stylish white coating, elaborated functionality and simplified ordering.

Designed for the users well-being

- Backrest, seat and footrest are ergonomically shaped and due to the new material even softer.
- Thanks to the new integrated towel bar the towel is ready to hand when it is needed.
- All parts that come into contact with the body are made of skin-friendly material.
- Flip-up armrests and footrest provide the highest degree of mobility.

DELPHIN

Made to last

- Robust and with an increased maximum user weight of 130 kg is the Delphin a reliable partner in the daily routine for now even more users.
- The new design of the solid hand rims prevents water from accumulating and avoids damaging water stops on the floor.
- The improved corrosion resistance makes the Delphin even more durable.

Designed to support in every situation

- Designed as shower, toilet and transport wheelchair in one, the Delphin supports you in your daily body care: The seat opening can be covered with a molded part and the comfortable seat also makes it suitable for use as transport chair or for the use in the shower.
- Toilet bucket and seat insert come now as standard and have not longer to be searched time-consuming on the order form.
