

DELPHIN

Sales Presentation

WHAT IS THE DELPHIN

- The **Delphin** is a shower and toilet commode for people who cannot walk or have limited mobility.
It can be used for private households and institutions.

DELPHIN KEY FEATURES

- **Increased user weight**

The max. user weight is increased from 90 to **130 kg (+45%)** addressing a wider user group and matching reimbursement/tender requirements

- **New colour**

The colour was changed from mint green into **white** to achieve a more stylish, modern look

- **More comfortable seat & back**

The hardness of seat and back is reduced from 55 to 35 shore (35% softer) -> increased comfort.

DELPHIN KEY FEATURES

- **Reduced water traps**

e.g. the solid handrim cannot catch any water -> no damages of floors

- **New towel bar**

A towel bar was added to increase rigidity and offer an option to place a towel -> increased comfort

- **Increased standard**

Toilet bucket and seat insert are standard -> simplified ordering @ lower cost

DELPHIN

- **Improved corrosion resistance**

e.g. QRX axle

- **Improved axle sleeve**

The **form fit** of the axle sleeve avoids toe in or out -> improved rigidity and performance

- **New handgrip**

The new handgrip offers more comfort and matches the purpose and design of the chair

- Kept design and features
