

100% ROLLATORS

GEMINO

GEMINO – 100% ROLLATOR FOR YOU

Are you looking for a rollator that fits your active lifestyle and allows you to walk comfortably and confidently, indoors and out? Then a Gemino rollator is the perfect choice for you. Our award-winning lightweight rollators set new standards in quality, comfort, safety and design. And let you be yourself!

The Gemino comes in various models, sizes and colours. Naturally, there's also a special/medical Gemino rollator for you, if you need something extra to walk safely. So there's always a Gemino that fits your needs - and personal style. Whatever your choice, you'll always get a 100% rollator. 100% comfort, safety and design.

Great when you can rely on something 100%

100%
COMFORT

ENJOYABLE WALKING EXPERIENCE

Our Gemino rollators have been designed with your comfort and enjoyment in mind. A lightweight aluminium frame, high-quality materials and maximum stability ensure a great walking experience, indoors and out. Due to the height adjustment with memory function the ergonomic handles are always in the right position. And if it's time for a break, you can sit safely on the spacious seat. Naturally, you can also take your rollator with you when travelling further – it easily folds to a compact size.

Try the Gemino of your choice, and discover how easy and enjoyable walking can be!

// CHOOSE YOUR FRAME SIZE

Selecting the right size will not only help you walk comfortably and safely. Each frame size also has a different seat height - important for maintaining a correct posture when sitting (For more information, please see Technical Data on page 22).

// SMART PUSH HANDLE ADJUSTMENT

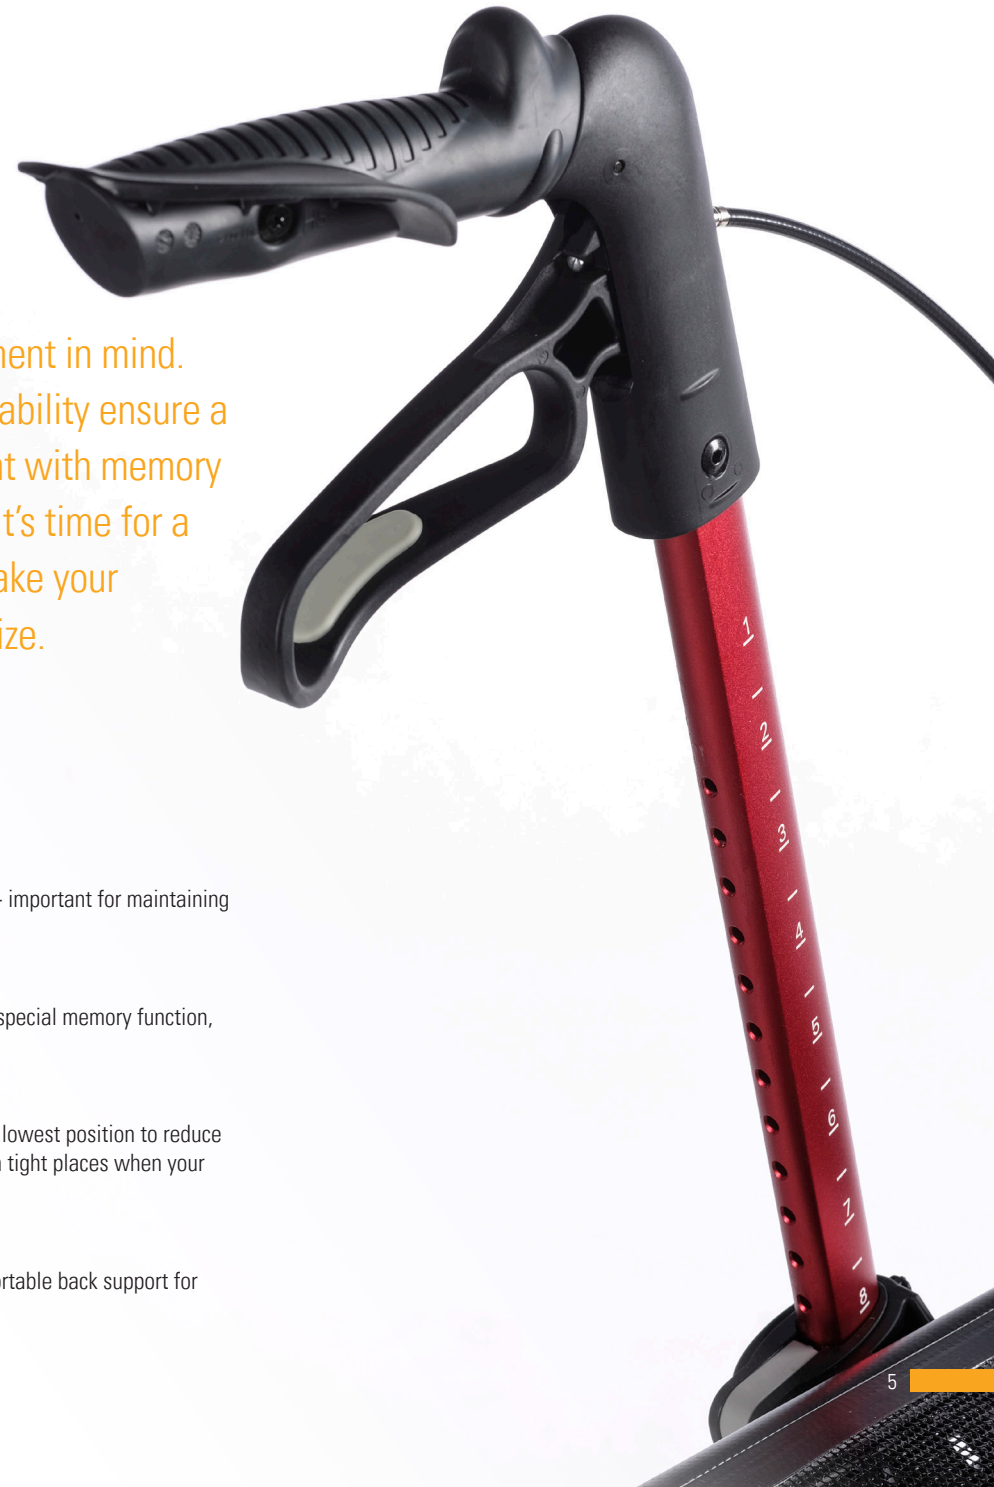

Find out how simple it is to adjust the ergonomic push handles to fit your height. They safely lock into place and due to the special memory function, they're always in the right position for you.

// EASY FOLDING WITH SELF-LOCKING SYSTEM

The Gemino's unique 'fold-click system' makes it very easy to fold and compact to store. Simply put the push handles in the lowest position to reduce the size further. Practical for small spaces and portability by car. By the way, did you know you can also safely manoeuvre in tight places when your rollator is (partially) folded?

// PRACTICAL EVERYDAY USE

With your Gemino you'll enjoy comfortable walking - and comfortable seating, if it's time for a break. Combine with a comfortable back support for additional support. Lots of things to carry? Simply use the practical basket – or choose a stylish bag.

WHEREVER YOU GO

Wherever you go, you'll feel confident with a Gemino rollator. Its sturdy, stable frame design ensures maximum safety and security in all settings. And the ergonomically designed push handles provide excellent support. But there's more. Many clever features are proof that we always go the extra mile for your safety. Gemino – enjoy your active live, in total safety!

// EXCELLENT, ULTRA-LIGHT BRAKING

Ergonomically designed, you'll find that operating the brake handles requires very little effort. The smart brake design is easy on the wheels and ensures optimal grip, even when the wheels show signs of wear.

// EASY NEGOTIATION OF OBSTACLES

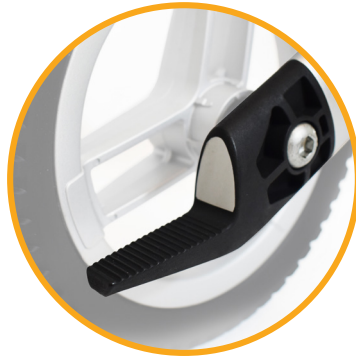

Kick tubes make it easy to climb kerbs or thresholds, while the protective side bumpers help you avoid obstacles.

// WELL VISIBLE IN THE DARK

Going out at night? 6 integrated reflectors on all sides make sure you're well visible in the dark. For even more safety, simply add the optional light.

// NEW STEP TIP

The stepping area is closer to the ground makes stepping up and down easier, reducing strain on your joints. The lightweight design ensures less effort when maneuvering, enhancing the overall mobility of your rollator.

GEMINO 20

GEMINO 20

GREAT FUNCTIONALITY AT AN ATTRACTIVE PRICE

Are you looking for a high-quality rollator that offers great value for money? Then the Gemino 20 is just right for you. Simple and safe to use, and it looks good too. With this lightweight rollator you'll enjoy easy and stable walking, while the 'fold-click system' allows for compact storage and easy transport. It's also fitted with a practical basket and spacious seat – great if you want to take a break.

The 'basic' Gemino 20 comes in 3 frame sizes (colour Grey). Choose the model that fits your height and enjoy 100% quality and functionality – at an attractive price.

// 100% GEMINO - SMART CHOICE FOR MOBILITY

Expect a real Gemino walking experience from your Gemino 20 rollator. It has all the technical features of the award-winning Gemino 30, and can be combined with lots of practical accessories.

// EASY STORAGE AND PORTABILITY

Your Gemino 20 simply folds to a compact package due to the unique 'fold-click system'. For practical storage and easy portability by car.

The new forks are essential for cutting down the rollator's overall weight and simplifying the wheel assembly. This makes changing wheels a breeze.

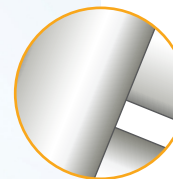

GEMINO 30

ENJOY LIFE AND EXPRESS YOURSELF

Looking for a lightweight rollator that stands out? Gemino 30 - the original 100% rollator – will exceed your expectations when it comes to comfort, safety and design. Its modern design styling and high finishing express quality and class. Naturally, it allows for full personalization to suit your active life – and personal style!

With the award-winning Gemino 30, you'll get 'the best of the best'. Balancing high manoeuvrability with maximum stability, this design rollator will truly enhance your independence. Personalize with your choice of colour and accessories – and enjoy life to the full!

// AWARD-WINNING DESIGN

Our original 100% rollator is recognized by international design institutes like red dot and iF and German consumer magazine Öko-Test.

The new forks are essential for cutting down the rollator's overall weight and simplifying the wheel assembly. This makes changing wheels a breeze.

GEMINO 30 carbon

GEMINO 30 CARBON

THE PREMIUM CARBON ROLLATOR FOR AN ACTIVE LIFESTYLE

May it be something special? Equipped with all the advantages of the Gemino 30, like Gemino's unique `fold-click-system` and the huge range of accessories, the Gemino 30 Carbon is the choice for those who are looking for something special. Particularly light, particularly elegant and particularly maneuverable are the features that characterize our premium rollator and make it really stand out.

// SUPER LIGHTWEIGHT

The low weight of 5.4 (M)/5.6 kg makes the Gemino 30 Carbon easy to lift, easy to transport and store, and also super maneuverable in tight spaces.

// FREEDOM OF LEG MOVEMENT

Parallel front tubes enable an increased seating space because the legs do not hit the tubes.

// IN FRAME INTEGRATED STEPTUPE

The steptube was unobtrusively integrated into the carbon frame and allows to easily overcome curbs.

**// GEMINO 30 CARBON COMFORT -
COMFORT WHEELS OPTIONAL
AVAILABLE**

With soft wheels that offer premium comfort and superior damping to reduce impact and vibration - even on uneven grounds. With a modern design, they provide a stylish, updated look while ensuring a smoother ride.

// ANATOMICAL SHAPED HANDGRIPS

Ergonomically designed hand grips provide extra comfort and a secure feel and support while walking due to the extra hand support.

// CARBON FRAME

Carbon is characterized by extreme strength and stiffness combined with low weight and this makes the Gemini 30 Carbon the perfect companion for an active lifestyle

// ADJUSTABLE BACK SUPPORT

The adjustable back support allows to lean back and relax. The built-in seat together with the back support allow for a comfortable rest when needed.

// EASY HANDLING OF PURCHASES

A lot to carry? The advanced net bag can be easily opened with one hand, offers plenty of space for purchases and carries up to 5 kg.

GEMINO 30 COMFORT

HIGH INDOOR MANOEUVRABILITY WITH OUTDOOR PERFORMANCE

Are you looking for a lightweight rollator that allows you to walk comfortably and confidently, in- and outdoors? Then a Gemino 30 Comfort rollator is the perfect choice for you. Compact with large soft wheels and superb rolling characteristics.

// WHEELS THAT MAKE THE DIFFERENCE

Strolling the cobblestone streets or walking down the forest path. The large, soft, shock absorbing wheels allows you to walk comfortable – on any surface.

// INDOOR AND OUTDOOR USE

The compact frame gives you high indoor manoeuvrability and the large soft wheels allows you to negotiate obstacles with ease whether it is indoor thresholds or outdoor curbs.

// EASILY HANDLING EXTRA WEIGHT

Lots of things to carry? The extra strong basket carries up to 10 kg.

GEMINO 60

// DESIGNED FOR SUPERIOR STABILITY

The Gemino 60's sturdy, extra wide and long frame together with the large wheels ensure excellent stability and safety, also on rough terrain.

// WHEELS THAT MAKE THE DIFFERENCE

The extra-large, soft wheels allow you to negotiate virtually any obstacle with ease. And ensure ultimate walking comfort – on any surface.

// BASKET WITH LID

Unlike net alternatives, the new weather-resistant basket guarantees no issues with rain or dampness. The basket can be fully closed preventing unauthorized access and adding an extra layer of security to your belongings.

// ENJOY MORE SPACE

The large wheelbase makes for maximum stability, whilst offering extra walking space and a very spacious seat – also available with adjustable comfort back support. Great if you want to take a break.

// EASILY HANDLING EXTRA WEIGHT

All Gemino 60 models are suitable for heavy-duty use and take a maximum user weight of 150 kg. Lots of things to carry? The extra strong basket carries up to 10 kg.

GEMINO 60

ULTIMATE COMFORT AND SAFETY – ON ANY TERRAIN

Let's go! Gemino 60 is the perfect companion for your active lifestyle – lightweight yet rock-solid. With its extra-large, soft wheels this design rollator allows you to walk comfortably and securely, also on uneven terrain. Strolling the cobblestone streets in the old town, enjoying a walk in the forest or simply negotiating thresholds in your home? It'll all be so much easier with the robust Gemino 60!

The Gemino 60 is designed for active outdoor use and easily copes with extra weight. At the same time, it quickly folds together – for easy storage and portability by car. Gemino 60 - stay active and enjoy ultimate comfort, wherever you go!

// GEMINO 60 ATR - ALL TERRAIN WHEELS

The all terrain wheels (ATR) are designed for use on uneven ground, making it ideal for winter conditions and for usage on any terrain. Enjoy increased comfort and safety with enhanced grip and damping.

GEMINO 30

Walker

EXTRA SUPPORT AND STABILITY. ALSO GREAT FOR GAIT TRAINING

Experience improved stability with our new adjustable strap for underarm support.

The new forks are essential for cutting down the rollator's overall weight and simplifying the wheel assembly. This makes changing wheels a breeze.

If you need extra support when walking, the Geminio 30 Walker is the perfect choice for you. This lightweight rollator is fitted with fully adjustable forearm supports, enabling you to walk comfortably and securely. The integrated push handles and brakes are easy to reach and very light to operate. Combining the benefits of the Geminio 30 with enhanced support and stability makes the Geminio 30 Walker also ideal for gait training.

// ADVANCED BRAKING OPTIONS FOR EVEN MORE SECURITY

Looking for even more security? Complement your Geminio 30 Walker with a slowdown brake or innovative SpeedControl braking system. With SpeedControl your rollator will brake automatically when you start to accelerate. You'll keep an upright posture and walk confidently and comfortably close to your rollator.

// FOREARM SUPPORTS FOR ENHANCED STABILITY AND SAFETY

You can easily adjust the height, depth and angle of the forearm supports to suit your needs. The brakes and push handles are fully integrated – easy to reach and light to operate. For comfortable and safe walking.

// NEW LASER FUNCTION WALKER

The innovative laser function is now available for our Walker, specifically designed for patients with Parkinson's. This feature provides visual cues to help initiate movement, improving gait and reducing the risk of freezing episodes. When freezing occurs, simply activate the laser line with a button on the push handles. By focusing on the line that appears on the ground, you can step over it and resume moving with ease.

GEMINO 60 walker

OPTIMAL SUPPORT AND STABILITY – INDOORS AND OUT

Going out a lot? With the Gemino 60 Walker you get the best of both worlds: The comfortable rolling characteristics and stability of the Gemino 60 and the additional support and safety you'd expect from a 'walker'. Adjust the forearm supports and push handles to fit your needs, and enjoy more freedom indoors - and outdoors. Naturally, you can also use this lightweight rollator for extended gait training!

// ADJUSTABLE FOREARM SUPPORTS FOR ENHANCED STABILITY

The height and angle adjustable forearm supports with integrated push handles and brakes are designed for optimal support and stability, and easy use. Adjust to suit your height and enjoy a comfortable walking position.

// COMFORTABLE AND SAFE OUTDOOR USE

The sturdy frame design coupled with extra-large soft wheels allow you to go out in total comfort and safety. Cobbled streets or thresholds in your home? With the Gemino 60 Walker you'll overcome any obstacle with ease.

GEMINO 30

SpeedControl

// ALSO A PERFECT COMPANION FOR CHILDREN

The GEMINO 30 S SpeedControl, the smallest model, offers children every opportunity to discover the world. Thanks to the dynamic braking system they enjoy total safety when walking – making gait training fun!

The new forks are essential for cutting down the rollator's overall weight and simplifying the wheel assembly. This makes changing wheels a breeze.

GEMINO 30 SPEEDCONTROL

THE ROLLATOR INNOVATION

You're looking for a rollator that offers maximum security when walking? Then the Gemino 30 SpeedControl with its innovative dynamic braking system is just what you need. You'll feel completely secure and enjoy a smooth gait and better, upright position. SpeedControl helps prevent falls and is also great for gait training – for adults and children.

// 3-LEVEL DYNAMIC BRAKING FOR MAXIMUM SECURITY

The innovative SpeedControl braking system features 3-level breaking and can be easily adjusted to your needs. When you start to accelerate, the centrifugal brakes in the rear wheels will automatically be activated. Naturally, you'll experience no resistance when walking at low speed or up slopes. SpeedControl promotes a steady pace, ensures that you walk comfortably, close to the rollator and prevents the rollator from 'running away' from you.

// GREAT AID FOR GAIT TRAINING

It's the Gemino 30 SpeedControl's unique ability to smooth out your gait through offering controlled resistance that also makes it a great training partner if you need to learn to walk again. You can concentrate fully on the sequence of movements, while your rollator promotes an upright posture and a steady pace. And use the different braking levels for adjusting the rollator to the progress you are making in your rehabilitation.

// NEW STEP TIP

The stepping area is closer to the ground makes stepping up and down easier, reducing strain on your joints. The lightweight design ensures less effort when maneuvering, enhancing the overall mobility of your rollator.

GEMINO 30

Parkinson

SPECIALLY DESIGNED FOR PEOPLE WITH PARKINSON'S

Some people need a little extra help to be able to walk safely. If you've Parkinson's disease, you may be one of those people. Our Gemino 30 Parkinson rollator has been developed with you in mind and offers features that are fully tailored to your particular needs. Get out and about safely – and with confidence!

// SLOWDOWN BRAKE PROMOTES A STEADY PACE

The Gemino 30 Parkinson is fitted with a slowdown brake, which provides additional resistance and helps you walk at a steady pace. Adjust the level of resistance to your specific needs.

// INCREASED SAFETY WITH REVERSE BRAKE

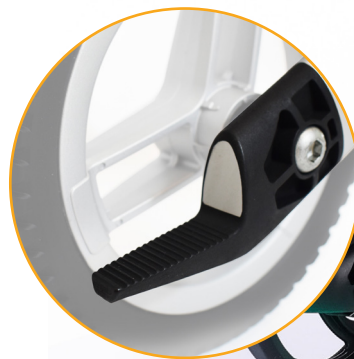

Due to the reverse braking system the rollator immediately stops moving once the brake is released. This increases safety if you experience 'freezing' while walking - when it feels like your feet are glued to the ground.

// LASER DEVICE HELPS OVERCOME FREEZING

When 'freezing' occurs, you can activate a laser line with a button on the push handles. Through concentrating on the line that appears on the ground, you can then step over it and get moving again.

// NEW STEP TIP

The stepping area is closer to the ground makes stepping up and down easier, reducing strain on your joints. The lightweight design ensures less effort when maneuvering, enhancing the overall mobility of your rollator.

The new forks are essential for cutting down the rollator's overall weight and simplifying the wheel assembly. This makes changing wheels a breeze.

GEMINO 30

comfort parkinson

ENHANCED MOBILITY FOR PARKINSON'S PATIENT

Discover the Parkinson's version of our popular Gemino 30 Comfort rollator – maintaining its maneuverability while still offering compactness and lightness. Experience superior stability and smooth rolling characteristics with large, soft wheels that provide a comfortable, secure ride even on uneven terrain. Plus, the features that give you that little bit of extra support to walk safely when you need it.

// 20% MORE COMFORT THAN USUAL WHEELS!

Walk with ease on any surface with our Gemino 30 Comfort Parkinson rollator. Equipped with large, soft, and shock-absorbing wheels, it ensures a comfortable stroll and effortless navigation over obstacles.

// ADJUSTABLE SLOWDOWN BRAKE PROMOTES A STEADY WALKING PACE

The lightweight GEMINO 30 Comfort Parkinson rollator is fitted with a slowdown brake, which provides additional resistance and helps you walk at a steady pace. Need more, or less, resistance? The level of resistance can easily be adjusted to your specific needs.

// LASER DEVICE HELPS OVERCOME FREEZING

In moments of freezing, the Gemino 30 Comfort Parkinson rollator supports you with a built-in laser line. A simple press of a button on the push handles activates the laser line, allowing you to focus on it as it appears on the ground. Step over with confidence and get moving again effortlessly.

The new forks are essential for cutting down the rollator's overall weight and simplifying the wheel assembly. This makes changing wheels a breeze.

// INCREASED SAFETY WITH REVERSE BRAKING SYSTEM

The reverse braking system is another great feature of the GEMINO 30 Comfor Parkinson: The rollator immediately stops moving once the brake is released. This increases safety for you if you experience 'freezing' while walking - when it feels like your feet are glued to the ground.

// NEW STEP TIP

The stepping area is closer to the ground makes stepping up and down easier, reducing strain on your joints. The lightweight design ensures less effort when maneuvering, enhancing the overall mobility of your rollator.

// NEW TROLLEY BAG SHOP-N-GO

The Shop-n-Go trolley bag is the perfect accessory for your rollator, making daily errands and trips a breeze. Easily store and protect your groceries in the trolley bag, take them home safely with your rollator, and remove the bag effortlessly with a single movement thanks to the clever fastening mechanism. With smooth-running wheels and an extendable handle, you can pull the bag effortlessly, perfect for negotiating single stairs or when the rollator is not to be taken into the living area. The Shop-n-Go is compatible with the latest models Gemino 20, Gemino 30 and Gemino 60 and can also be retrofitted to older models.

// UMBRELLA****

Rainy weather conditions? With this height-adjustable umbrella you can go out safely, as you can keep both hands on the push handles.

// BACK SUPPORT*

Provides you support to sit comfortably and safely when it's time to take a break. No need to remove when folding the rollator.

// ADJUSTABLE COMFORT BACK SUPPORT**

For additional comfort, choose this large, softly padded back support. Quick to adjust, easily folds with the rollator.

// TABLE TRAY

Practical tray with cup holder allows you to transport food and beverages safely and with ease.

// CRUTCH HOLDER

Keeps your crutch or walking cane securely fastened when walking. Easy to mount, easy to access.

// BASKET FOR OXYGEN CYLINDER***/**

Carrier bag with shoulder strap for safe transport of oxygen cylinders.

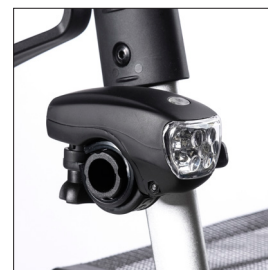

// SLOWDOWN BRAKE****

Provides adjustable resistance for steady walking. Easy to turn on/off.

// UNIVERSAL BRACKET

Suitable for fitting your choice of personal accessories.

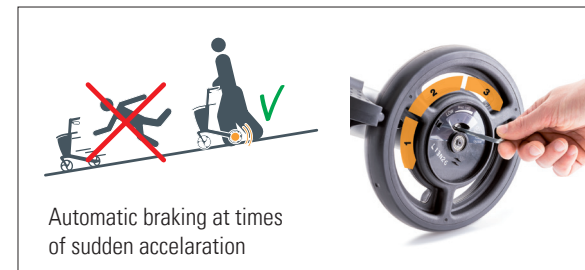

// LIGHT

Ensures you're well visible in the dark – for additional safety.

// INFUSION HOLDER****

Height and angle adjustable drip holder.

Automatic braking at times of sudden acceleration

// SPEEDCONTROL*

With the innovative SpeedControl braking system – available with all Gemino 30 models – you'll feel completely secure when walking. Your rollator will brake automatically when you start to accelerate, ensuring smooth walking and a comfortable, upright position at all times. Naturally, you'll experience no resistance when rolling at normal pace or up slopes. SpeedControl helps prevent falls and is also great for gait training - for adults and children!

// ONE HAND BRAKE

Comfortable and safe usage with one hand.

// REVERSE BRAKE KIT

The rollator immediately stops moving when the brake is released.

// STABILIZER BAR

More safe feeling, easy removable for transport. Only available for Gemino 30 and Gemino 60 Walker
