

BULLETIN DETAILS

Product Group:	Adult Manual, Paediatric & Sports - products		
Model Affected:	All Models - Simba, Youngster3, Life family, Argon2, Neon2, Nitrum & Xenon2		
Effective Date: 01.01.2022	Serial No. Effective From:	N/A	
Bulletin Subject:	Discontinuation of Manual Chair Colours & Schwalbe Downtown Tyre		

At Sunrise Medical we frequently review our purchasing streams to understand which items/options from our suppliers cause continual delays of chairs being shipped on the initial delivery dates provided. It is for this reason we will be discontinuing a few options from our manual chair range, with the aim of being able to provide consistent delivery dates of products affected.

- Matt Lime & Brilliant Lime colour discontinuation (Simba, Youngster3, Life family, Argon2, Neon2, Nitrum & Xenon2)
- Schwalbe Downtown discontinuation (Simba, Youngster3, Life family, Argon2, Neon2, Nitrum & Xenon2)

Manual Chair Colours Discontinuation

The colours **Matt Lime** and **Brilliant Lime** will be discontinued, effective from the 1st January 2022 from all models manufactured in Malsch, this is due to some of the ingredients no longer being available. All existing orders and quotes will be fulfilled but the option will not be available for customers placing future orders.

Brilliant green was a popular option, therefore we will be introducing an alternative metallic green option called "**Mamba-Green**" to our colour range. This will be available from the 1st January 2022. Spare parts can be ordered in these colours until 1st January, from this point an alternative colour will be ordered.

Schwalbe Downtown Discontinuation

There has been supply shortages and very low option – mix of the Schwalbe Downtown Tyre, for this reason we have decided to discontinue the Schwalbe downtown tyre for the 1st January 2022; although an alternative option can be found in the Schwalbe Marathon Plus and RightRun.

Alternative Options:

Marathon Plus

The Marathon plus combines comfort and easy rolling of a pneumatic tyre and is exceptionally effective at preventing defects. It also offers resistance to penetration punctures; this is an ideal tyre for rough terrain.

RightRun

The RightRun, our lightweight air - filled tyre that offers a cushioned ride and a slick tread for low roll resistance; this is an ideal tyre for sports wheelchairs, indoor use and has outdoor capabilities.

Spare: *Schwalbe downtown will not be available as spare part any further- use Marathon Plus Or RightRun instead.*

For any queries on any of these updates please contact your local Area Sales Manager.
