

WHERE YOU WANT TO BE.

ELITE² FAMILY[®] SERIES

COMFORT, RELIABILITY
AND SAFETY ON THE ROAD

ELITE² Mini

ELITE² XS

ELITE² Plus

THE ELITE² FAMILY

An established scooter family with enhanced quality and upgraded service information - for improved lifetime and increased reliability. Easy to ride, affordable and environmentally friendly - choose the scooter that suits your needs.

The Elite² family combines many advantages so that you can feel safe and comfortable at all times. With the familiar ergonomic wig-wag control levers the Elite² family offers the much acclaimed hand / thumb control as a standard. On the LCD display you can easily read out the day's distance, total distance and driving speed. The correct sitting position can be achieved by adjusting the seat and steering column.

The Elite² scooters are the ideal travel companion with a maximum speed of 12 or 15 km/h (depending on model), which will bring you safely to your destination.

OPTIMAL SAFETY

- Integrated CE-marked clear and bright LED lights
- A secondary brake with electronic stop function
- Easily visible break lever with electronic stop function ensures instant braking if required
- Strong magnetic parking brake

Easy manoeuvring in tight spaces with the Elite² Mini

ELITE² *Mini*

- Compact scooter for better manoeuvrability in narrow spaces/environments, in shopping malls, lifts
- Adjustable rear suspension for a comfortable drive for occasional use on a variety of surfaces

ELITE² *XS*

- Perfect balances ration between length and wheel size for easy driving
- Very comfortable drive thanks to bigger wheels and adjustable rear suspension for every user on a variety of surfaces

ELITE² *Plus*

- Extra comfortable drive thanks to biggest wheels and extended adjustable rear suspension
- Steers just like a car: light and easy to use
- Optional twist controller (hand throttle) available for more ergonomic hand position

HYBRID TYRES

Low risk of punctures due to hybrid tyres. The Elite² family series is characterised by the particularly robust hybrid tyres. This not only reduces costs for the user. The dealer can also profit enormously from this. Hybrid tyres are more stable and thus reduce the need for service appointments.

The tyres run much more smoothly and, especially on uneven ground, much more quietly as they can absorb unevenness well. It is therefore puncture-proof and makes the day trip easier - this increases safety and reduces the risk of getting stuck with a flat tyre.

A tyre technology with greater safety and comfort for carefree driving fun.

Available on Elite² XS and Elite² Plus.

Solid insert
Inner air tube

A close-up, low-angle shot of the front wheels of two scooters parked on a cobblestone path. The wheels are black with a deep, wavy tread pattern. The scooter on the left has a black fender and a black suspension fork. The scooter on the right has a silver fender and a silver suspension fork. The background is a blurred green lawn. The text is centered in the upper half of the image.

There is a wide range of options
and accessories that will provide
the scooter with all the
comforts, needs and your personal
preferences.

(on Elite2 XS and Elite2 Plus)
- Sliding and turning mechanism
for easy transfers

COMFORT ON EVERY TRIP

The Elite² family advanced seating solution takes comfort to the highest level – from the seat height, depth and recline adjustments, to the flip up, width, angle and depth adjustable comfort armrests. The armrest can be flipped back to facilitate transfers and can be also easily angle adjusted for optimum positioning. Every feature has been designed for comfort.

- **Moving the cockpit**

- **360° swivel seat enable comfortable transfers**

- **Depth adjustable seat**

- **Flip back armrests**

ELITE² FAMILY[®] SERIES

DESIGN AND MAXIMUM SAFETY

Maximum safety on the road

To ensure the visibility on the road, the Elite² family scooters incorporates front, rear, indicators and brake LED lights. It also features mudguards, hand brake, anti-tip wheels and rear bumper as standard. All in a sturdy structure, approved for users up to 136 kg / 21 stone (Elite² Mini) and 175 kg / 27 stone (Elite² XS and Elite² Plus).

ELITE² FAMILY[®] SERIES

Comfort, reliability and safety on the **road**.

True to this theme, we have developed the Elite² family. It focuses on the improvement of existing scooters. The focus here is on rental and re-use. This enables dealers to keep existing parts - sustainable, sensible and cost-effective.
