VIGO HEAD CONTROL

UNOBTRUSIVE, WIRELESS, AND PROPORTIONAL

VIGO HEAD CONTROL

Vigo is a wireless, proportional head control that allows drivers to control their power wheelchairs and other devices with subtle and intuitive head movements.

DISCREET & WIRELESS SLEEK DESIGN

- Unobstructed field of view making it so friends can keep eye contact and see facial expressions
- Connects via Bluetooth, so there aren't any wires to get in the way

SMOOTH OPERATION INTUITIVE CONTROL

- Sensors in the headset translate accurate reading of head movement to smooth driving
- Quick and easy to learn

SWITCH-IT
SMART TECHNOLOGIES

Using sensitive proximity sensors, Switch-It pioneered its use as a drive control for wheelchair applications. Transforming how people with disabilities could use technology, Switch-It would become an industry leader in alternative drive controls.

The manufacturer, Now Technologies LTD, has more than 10 years of industry-specific knowledge and was founded to help people with disabilities to live independent lives.

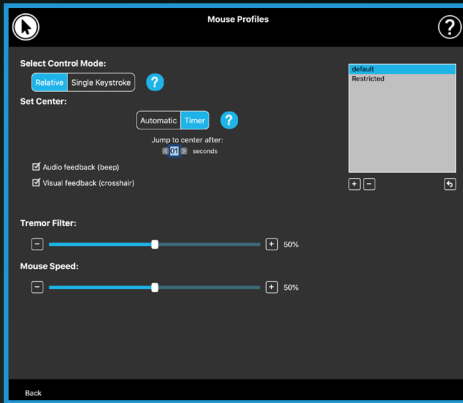

POWER SEATING FUNCTIONS CHANGE POSITIONS EASILY

- Lift, tilt, and recline with your head movement – no need to reach joystick
- Easily switch between seating functions and drive mode
- Position of headset is maintained when switching between seating functions and driving

CONFIGURE SETTINGS VIGO APP

- Each head movement control can be configured independently via the App
- Adjustments can be made to adapt to changing needs over time
- Can be configured so the driver's head can be resting on the head support

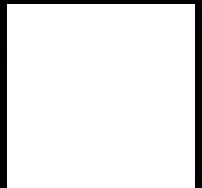

CONTROL DEVICES MOUSE MODE

- Clicking made simple, just wink or move your cheek
- Quick and effortless typing with the virtual keyboard

TECH SPECS

- Compatible with PG's OMNI2, OMNI and Input/Output Module
- Connect any 3.5mm Jack external switch
- Up to 14 hours of battery life
- USB charging
- Weight: 37 grams
