

F35-R2

F35 - R2

Compact folding and very transportable

Standard, comfortable and folding electronic wheelchair

The F35-R2 has been designed with multiple features and provide maximum comfort for users. It is designed to offer comfort and accessibility in their environment.

The **batteries of 50 Amp are a Standard feature** and its powerful motors make the new F35-R2 function for longer periods of time offering enhanced range and performance.

The 8 amp charger recharges the batteries in the shortest period of time.

Very easy to use and to transport

The backrest can be easily removed using the simple lever design to enable easy transportation and storage.

After removing the battery box and detaching the backrest, the chair can be folded to assist in transportation.

The anti-tip tubes are also detachable making the chair compact to stow away in the boot of the car.

Compact folding and easy to transport after removing the battery box and removing the backrest.

Tailored power chair

The F35 -R2 is tailored to adapt to the needs of each user. Each armrest provides a width adjustment of 4.5 cm each side.

This allows the standard seat width to have 9 cm of adjustment to a possible seat width of 52 cm. Height adjustment is achieved using a simple lever mechanism.

Width adjustable armrest, allow to be adjusted until 52 cm

Height adjustable armrest, ensuring maximum comfort.

The footrests can be swung either in or out.

Parallel swing - away control box.

Ergonomic designed armrest.

Go everywhere...

The footrest are detachable and can be swung either inwards or outwards. Thanks to this feature, the length of the chair can be altered without the need to remove the footrest prior to entering small spaces such as lifts.

Seat cushion is included to give more comfort.

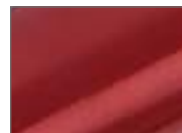

Available options

- Kerb climber
- Attendant control only
- Dual control (user and attendant)
