MyWay+

Adventure in every step

Supporting Children

Introducing the MyWay+

MyWay+ is an open frame walker which cleverly supports children in an upright position, improving stepping and maximising opportunities for exploration, interaction and participation.

A bespoke frame combined with a wraparound hoistable harness and a wide range of accessories, ensures the MyWay+ can be tailored to meet every need and ability.

Scan with your camera to view the new MyWay+ in action

Tailored Approach To Every Child

Available in 3 frame sizes with 6 colour-coded harnesses, MyWay+ brings individuality to the world of walking frames. Each frame comes with our robust new indoor/outdoor wheels ensuring there's no limit to which path your little one can take. These sturdy wheels with *side-step technology come with anti-roll back, direction lock and variable resistance as standard creating that individual set-up to get everyone moving.

A wide range of accessories can be combined to create a bespoke frame, tailored to every child's needs and abilities.

Learn about the MyWay+ accessories

“

Emilia absolutely loves the freedom that her MyWay+ walker offers her and being able to join in with her siblings when they are playing together. The MyWay+ keeps all her joints and muscles mobile and gives her the best opportunities for movement and independence.

Emilia's mum

”

OPTIONS INCLUDE:

- 1 Castors – Indoor and Outdoor (Robust, anti-roll back, direction lock (including *sideways lock), varied resistance) – to suit a child’s individual needs
- 2 Headrests (complex and standard) – to act as a prompt or offer more intimate occipital support.
- 3 User Handles (complex and standard) – multi-adjustable support for the upper limbs may aid stepping
- 4 Saddle drop – proximal support to help reduce hip adduction
- 5 Saddle (standard and slim) – to aid with transfers or provide additional off-loading of lower limbs
- 6 Three options of frame size
- 7 Tailored fit from toddler to teen for frames and harnesses
- 8 Overall and fine height adjustment of the spine
- 9 Detachable and height adjustable adult handles – to enable parents or carers to safely push and steer the frame, particularly useful with the pedal accessory
- 10 Ankle guides – to guide lower limb movement away from scissoring or asymmetric stepping pattern

Learn about the MyWay+ Castors

Unique Corset Like Harness

- Hug-like effect increases sensory feedback, dampens involuntary movement and provides comfort, support and reassurance.
- Provides added core stability which in turn can improve lower limb movements and head control
- Hoistable harness encourages easier transitions in and out of the frame

Open Frame Design

- Open, easy-access frame encourages interaction and participation, whether at home, in the playground or in the classroom.
- Newly developed indoor/outdoor castors enable children to be active in lots of different environments, encouraging children of all abilities to meet the recommended physical activity guidelines.

There's always more to MyWay+

Multi-functional castors, lightweight frame, prone, gross and fine height adjustment combine to help initiate stepping and control movement.

Frame Size	1	2	3
Age (approx.)	1-5	4-11	9-16
